Quality Assurance in Higher Education Don F. Westerheijden, Bjorn Stensaker, Maria Joao Rosa, 2007-09-04 By bringing together leading experts on quality assurance in higher education from seven countries from Europe the USA and South Africa this volume intends to go several steps further than most publications on quality assurance First it brings together views from micro to macro levels in the multi actor space showing how quality assurance impacts the higher education system throughout Second it links quality assurance solidly to issues of regulation translation rather than mechanical implementation and transformation instead of being only focused on quality assurance as a single policy instrument Third it uses this broad range of research insights to criticize current practices explaining for instance why sometimes people have

difficulty in tracing any concrete effects of all initiatives taken in this area Finally the book offers proposals for better focusing quality assurance in the future to address institutional challenges better The general purpose of the book then is to give an engaged academic reflection on how quality assurance is embedded in higher education and in a dynamic way to assess its impacts and potential improvements External Higher Education Quality Assurance in China Liu

Shuiyun,2019-10-23 Since the end of the 1990s the Chinese higher education system has seen a dramatic expansion of enrolment China currently has the largest higher education system in the world however the rapid growth resulted in concerns being raised about the quality of the system In response an array of external quality assessment schemes of higher education has been established based on suggested policy designs and reforms The establishment of an effective quality assurance mechanism is a major challenge for universities around the world therefore what experience and lessons can be learned from the Chinese practice This book analyses the external quality assurance system of higher education in China It brings together scholarship on this topic by renowned Chinese experts reporting and discussing recent policy developments and research It presents and analyses various quality evaluation schemes covering undergraduate postgraduate and vocational levels of higher education The theoretical roots and value orientation of Chinese higher education quality assurance are also reflected on This volume was originally published as a special issue of Chinese Education and Society
