Quarterly Essay 29 Love Money The Family And The Free Market:

Quarterly Essay 29 Love and Money Anne Manne, 2008-03-01 In *Love and Money* Anne Manne looks at the religion of work its high priests and sacrificial lambs As family life and motherhood feel the pressure of the market she asks whether the chief beneficiaries are self interested employers and child care corporations This is an essay that ranges widely and entertainingly across contemporary culture it casts an inquisitive eye over the modern marriage of Kevin Rudd and Therese Rein and considers the time bind and the shadow economy of care Most fundamentally it is an essay about pressure the pressure to balance care for others and the world of work Manne argues that devaluing motherhood still central to so many women s lives has done feminism few favours For women on the frontline of the work centred society it has made for hard choices Eloquently and persuasively Manne tells what happened when feminism adapted itself to the free market and argues that any true definition of equality has to take into account dependency and care for others It is falling fertility above all else which gives women a political bargaining chip of a new and powerful kind Policy makers formerly deaf to mothers needs will have no choice but to listen Anne Manne *Love and Money* Anne Manne shows a depth and range of analysis that is rare in social science writing today Her arguments go behind the child care debate behind the work and family tension that is now in the foreground of most Australians daily lives to ask the really big questions Steve Biddulph In *Love and Money* Anne Manne calls on us to imagine a radically different model of social and political life one that centres around care rather than on gendered notions of the autonomous unencumbered individual Julie Stephens Anne Manne is an Australian journalist and social philosopher who has written widely on feminism motherhood childcare family policy fertility and related issues She is a regular contributor to the Age and the Monthly Her books include *Quarterly Essay 29 Love and Money The Family and the Free Market* *The Life of I the New Culture of Narcissism* and *Motherhood How Should We Care for Our Children* which was shortlisted for the 2006 Walkley non fiction prize **Goodbye to All That** Robert Manne, David McKnight, 2010 This book explores the global financial crisis its social implications and its potential outcomes for Australia It examines neo liberalism and economic rationalism and discusses their consequences After the GFC how might we rethink the challenge of climate change of care of quality of life more generally What is the proper role of the market What parts of the social fabric need to be mended to create a more sustainable fairer Australia Contributors Kevin Rudd Robert Manne Jean Curthoys John Quiggin Michael Pusey Anne Manne David McKnight Ian Lowe Guy Pearce *Men, Wage Work and Family* Paula McDonald, Emma Jeanes, 2012 In the last two decades there has been a plethora of research on a range of subjects collectively and rhetorically known as work life balance The bulk of this research which spans disciplines including feminist sociology industrial relations and management has focused on the significant concerns of employed women and or dual career couples Less attention has been devoted to scholarship which explicitly examines men and masculinities in this context Meanwhile public and organizational discourse is largely espoused in gender neutral terms often neglecting salient

gendered issues which differentially impact the ability of women and men to successfully integrate their work and non work lives This edited book brings together empirical studies of the work life nexus with a specific focus on men s working time arrangements how men navigate and traverse paid work and family commitments and the impact of public and organizational policies on men s participation in work leisure and other life domains The book is innovative in that it presents both macro institutional how policy affects practice and micro individual from men s own perspectives level studies allowing for a rich and contrasting exploration of how men s participation in paid work and other domains is divided conflicted or integrated The essays in this volume address issues of fundamental social labor market and economic change which have occurred over the last 20 years and which have profoundly affected the way work care leisure and community have evolved in different contexts Taking an international focus Men Wage Work and Family contrasts various public and organizational policies and how these policies impact men s opportunities and participation in paid work and non work domains in industrialised countries in Europe North America and Australia

Your Body Is Holy Paul Tyson,2025-09-22 The Christian understanding of sex is defined by categories of right worship the iconic and sacred meaning of the sexed human body and the marriage of Christ to the church Centrally the love of God as the first reality of our lives right worship defines the love of one s neighbor as oneself sexual ethics This Christian understanding has unique signatures that many young people today even in our churches have no inkling of This book unpacks and explains the distinctive ways in which sex is understood by Jesus and the apostles and how this distinctive understanding shapes Christian sexual commitments and behaviors For real human flourishing in sexual relationships comes only through the blessing of God Once the core spiritual truths of a biblical outlook on human sexuality are clear the book then seeks to understand pornography feminism queer gender identity trans sexualism and homosexuality in a Christian light In a time of great confusion about sex great damage from sexual relationships and a culture that habituates us in self focused individualism there is great need for the liberating gospel way in this domain If you are a Christian and confused about the meaning of sex then this book is for you

Language of the Heart Eva Desiree van den Berg, 2013-02-27 This book seeks to examine how Sufi thought might provide critical understanding of contemporary life and a pathway towards the recovery of a more meaningful existence Rumi's mystical teachings are of great value at a time of rampant materialism and indiscriminate consumerism and have the potential to illuminate the precarious state of the world as well as revitalize contemporary social critique eco philosophy and bio semiotics in what is increasingly being regarded as a post secular age

Modern Motherhood and Women's Dual Identities Petra Bueskens, 2018-05-31 Why do women in contemporary western societies experience contradiction between their autonomous and maternal selves What are the origins of this contradiction and the associated double shift that result in widespread calls to either lean in or opt out How are some mothers subverting these contradictions and finding meaningful ways of reconciling their autonomous and maternal selves In *Modern Motherhood and Women's Dual Identities* Petra Bueskens argues that western modernisation consigned women to the home and released them from it in historically unprecedented yet interconnected ways Her ground breaking formulation is that western women are free as individuals and constrained as mothers with the twist that it is the former that produces the latter Bueskens theoretical contribution consists of the identification and analysis of modern women's duality drawing on political philosophy feminist theory and sociology tracking the changing nature of discourses of women freedom and motherhood across three centuries While the current literature points to the pervasiveness of contradiction and double shifts for mothers very little attention has been paid to how some women are subverting contradiction and rewriting the sexual contract Bridging this gap Bueskens interviews ten revolving mothers to reveal how periodic absence exceeding the standard work day disrupts the default position assigned to mothers in the home and in turn disrupts the gendered dynamics of household work A provocative and original work *Modern Motherhood and Women's Dual Identities* will appeal to graduate students and researchers interested in fields such as Women and Gender Studies Sociology of Motherhood and Social and Political Theory

Confronting Postmaternal Thinking Julie Stephens, 2012-03-20 Julie Stephens confronts the core claims of postmaternal thought and criticises dominant representations of feminism as having forgotten motherhood She does this through an investigation of oral histories life narratives web blogs and other rich and varied sources The book highlights the deep cultural anxiety that exists around public expressions of maternalism It examines why postmaternal thinking has become so influential in recent decades and asks why there has been a growing unease with maternal forms of subjectivity and maternalist perspectives
