Questioning Collapse Human Resilience Ecological Vulnerability And The Aftermath Of Empire:

Questioning Collapse Patricia A. McAnany, Norman Yoffee, 2009-09-28 Questioning Collapse challenges those scholars and popular writers who advance the thesis that societies past and present collapse because of behavior that destroyed their environments or because of overpopulation In a series of highly accessible and closely argued essays a team of internationally recognized scholars bring history and context to bear in their radically different analyses of iconic events such as the deforestation of Easter Island the cessation of the Norse colony in Greenland the faltering of nineteenth century China the migration of ancestral peoples away from Chaco Canyon in the American southwest the crisis and resilience of Lowland Maya kingship and other societies that purportedly collapsed Collectively these essays demonstrate that resilience in the face of societal crises rather than collapse is the leitmotif of the human story from the earliest civilizations to the present Scrutinizing the notion that Euro American colonial triumphs were an accident of geography Questioning Collapse also critically examines the complex historical relationship between race and political labels of societal success and failure

The Making of Empire in Bronze Age Anatolia Claudia Glatz, 2020-11-12 This book reconsiders the concept of empire and examines the processes of imperial making and undoing in Hittite Anatolia c 1600 1180 BCE Why Did Ancient Civilizations Fail? Scott A J Johnson, 2016-09-19 Ideas abound as to why certain complex societies collapsed in the past including environmental change subsistence failure fluctuating social structure and lack of adaptability *Why Did Ancient Civilizations Fail* evaluates the current theories in this important topic and discusses why they offer only partial explanations of the failure of past civilizations This engaging book offers a new theory of collapse that of social hubris Through an examination of Mesopotamian Egyptian Roman Maya Inca and Aztec societies Johnson persuasively argues that hubris blinded many ancient peoples to evidence that would have allowed them to adapt and he further considers how this has implications for contemporary societies Comprehensive and well written this volume serves as an ideal text for

undergraduate courses on ancient complex societies as well as appealing to the scholar interested in societal collapse **A Companion to World History** Douglas Northrop, 2014-12-15 A COMPANION TO WORLD HISTORY This new volume offers insightful reflections by both leading and emerging world historians on approaches methodologies arguments and pedagogies of a sub discipline that has continued to be in flux as well as in need of defining itself as a relevant alternative to the traditional national regional or chronological fields of inquiry Choice The focus on the practicalities of how to do world history probably gives it its edge Its thirty three chapters are grouped into sections that address how to set up research projects in world history how to teach it how to get jobs in it how to frame it and how it is done in various parts of the globe It is an actual handbook in other words as opposed to a sample of exemplary work English Historical Review A Companion to World History offers a comprehensive overview of the variety of approaches and practices utilized in the field of world and global history This state of the art collection of more than 30 insightful essays including contributions from an international cast of leading world historians and emerging scholars in the field identifies continuing areas of contention disagreement and divergence while pointing out fruitful directions for further discussion and research Themes and topics explored include the lineages and trajectories of world history key ideas and methods employed by world historians the teaching of world history and how it draws upon and challenges traditional approaches and global approaches to writing world history By considering these interwoven issues of scholarship and pedagogy from a transnational interregional and world global scale fresh insights are gained and new challenges posed With its rich compendium of diverse viewpoints A Companion to World History is an essential resource for the study of the world s past *Creating an Ecological Society* Fred Magdoff, Chris Williams, 2017-05-29 Sickened by the contamination of their water their air of the Earth itself more and more people are coming to realize that it is capitalism that is quite literally killing them It is now clearer than ever that capitalism is also degrading the Earth s ability to support other forms of life Capitalism s imperative to make profit at all costs and expand without end is destabilizing Earth s climate while increasing human misery and inequality on a planetary scale Already hundreds of millions of people are facing poverty in the midst of untold wealth perpetual war growing racism and gender oppression The need to organize for social and environmental reforms has never been greater But crucial as reforms are they cannot solve our intertwined ecological and social crises Creating an Ecological Society reveals an overwhelmingly simple truth Fighting for reforms is vital but revolution is essential Because it aims squarely at replacing capitalism with an ecologically sound and socially just society Creating an Ecological Society is filled with revolutionary hope Fred Magdoff and Chris Williams who have devoted their lives to activism Marxist analysis and ecological science provide informed fascinating accounts of how a new world can be created from the ashes of the old Their book shows that it is possible to envision and create a society that is genuinely democratic equitable and ecologically sustainable And possible not one moment too soon for society to change fundamentally and be brought into harmony with nature **Making the Medieval Relevant** Chris

Jones, Conor Kostick, Klaus Oschema, 2019-12-02 When scholars discuss the medieval past the temptation is to become immersed there to deepen our appreciation of the nuances of the medieval sources through debate about their meaning But the past informs the present in a myriad of ways and medievalists can and should use their research to address the concerns and interests of contemporary society This volume presents a number of carefully commissioned essays that demonstrate the fertility and originality of recent work in Medieval Studies Above all they have been selected for relevance Most contributors are in the earlier stages of their careers and their approaches clearly reflect how interdisciplinary methodologies applied to Medieval Studies have potential repercussions and value far beyond the boundaries of the Middle Ages These chapters are powerful demonstrations of the value of medieval research to our own times both in terms of providing answers to some of the specific questions facing humanity today and in terms of much broader considerations Taken together the research presented here also provides readers with confidence in the fact that Medieval Studies cannot be neglected without a great loss to the understanding of what it means to be human
