leadership for sustainable peace Thich Duc Thien,Thich Nhat Tu,2019-04-16 EDITORS INTRODUCTION BACKGROUND We are experiencing an unprecedented period where wide ranging and disruptive major global change is taking place around us In this context the theme of Mindful Leadership and Sustainable Development provides a point of reference and pathway for understanding the contemporary chaotic situations These disruptive changes challenge our understanding and meaning of humanity and truly question whether or not we are able to live in a society where justice equality peace and prosperity abound In the Buddhist light a focus is placed on understanding the Buddhist teachings to develop solutions for dealing with these wide ranging problems Both the scope of change and the response from a Buddhist approach are core to the content of this volume It is of paramount importance that any investigation and development of solutions for the changes taking place require guidance from the Buddhist philosophy As a starting point for discussion an initial focus is placed on providing a thorough and critical understanding of the character and context of change In doing so we also seek to clarify and outline the nature of a Buddhist approach In completing this review it is productive to see that given the complex issues being dealt with the papers do generate different frameworks and viewpoints within the broad term of approach The frameworks based on the

Buddha's teachings are not fully fixed and agreed upon by all. Therefore our term approach refers to a set of arrangements and viewpoints that act to inspire further discussion and development. Given the above context, this volume is a collection of conference papers presented and published for the panel on the first sub theme of UNDV 2019 on Mindful Leadership for Sustainable Peace on 13 May 2019 at the Tam Chuc International Convention Center Ha Nam Vietnam. The panel commemorates the occasion of the 16th United Nations Day of Vesak Celebrations 2019. Through the contributions of participants and their papers at this workshop, this volume provides a diverse and rich range of thinking and wisdom rather than more traditional mainstream thinking or conventional wisdom. Treating the Buddha's teachings as a basic theoretical reconstruction, we examine the relationships between societies and Buddhism. We combine the analyses of the conflicts, trends and dynamics affecting future global development with focused studies on a range of policy areas for improving societies. In the Buddhist light, our two most crucial aims in this period of disruption are to greatly increase the influence and impact of Buddhism as our foremost duty and that the Buddhist responsibility contributes to creating a new foundation for Mindful Leadership and Sustainable Development.
