

A dramatic photograph of a drag racing car, possibly a Top Fuel or Funny Car, completely engulfed in intense, bright yellow and orange flames. The fire is massive, obscuring much of the car's body. The car's roll-over protection structure (ROPS) is visible, and a driver wearing a red helmet can be seen inside. The background is dark, making the fire stand out.

Rear-Engine Revolution Steve Reyes, 2016 In general terms drag racing is the fastest form of motor racing within drag racing Top Fuel is the fastest of the classes Top Fuel has always been the leading class in terms of technology cost excitement and speed Over the years technology has changed greatly What started out as a flathead engine four wheels frame rails and a steering wheel has morphed into technological wonders producing horsepower figures in the thousands and running supercharged nitromethane cars over the quarter mile in the 4 second range Industry legend and veteran journalist Steve Reyes was there through all the technological changes he has the photos anecdotes quotes and tales of the era He discusses it all including the experimentation that led to incredibly exciting racing and wild mishaps Join him in the pages of this book where he shares all the stories of this incredible racing era **Drag Racing's Rebels** Doug Boyce, 2023-11-06 Learn the

entire fascinating story of the American Hot Rod Association AHRA in this wonderfully illustrated color history When the National Hot Rod Association NHRA was formed in 1951 by Wally Parks the reasoning for the formation was to create order from chaos by instituting safety rules and performance standards that helped legitimize the sport of drag racing Some organization was certainly necessary A postwar boom in automotive enthusiasm was reaching new heights and Hot Rod magazine and the NHRA were right in the thick of it The NHRA hosted its first drag racing event in 1953 and in 1955 the organization staged its first national event which was simply called The Nationals The AHRA formed in 1956 as an alternative to the NHRA where the drivers voted on the rules rather than sanctioning bodies and tracks and their influence on the sport was felt almost immediately When the NHRA denied the use of nitromethane in 1957 the AHRA approved it When the NHRA banned aircraft powered dragsters in 1961 the AHRA welcomed them When the NHRA said no to the emerging Funny Car in 1965 the AHRA said yes When fans and racers screamed for a heads up Super Stock category in 1968 the AHRA delivered The AHRA was called a rebel association Some say that it was more of an association that got things done to the delight of fans and racers The AHRA was on equal ground with the NHRA by the 1970s drawing enormous crowds and racer entries In this fascinating history veteran author Doug Boyce tells the story of the AHRA the rise the competition the events and the

eventual downfall of the organization After AHRA President Jim Tice passed away in 1982 internal fighting for control of the association resulted in its doom Get the whole story here and add this wonderful volume to your drag racing library **Drag Racing in the 1960s** Doug Boyce,2021-03-15 The 1960s were a fascinating decade on the race scene Relive the memories today through this wonderful new book Drag racing has a long and storied history Many have said that the first drag race happened shortly after the second car was made While that may or may not be true racing prior to World War II was mostly centered around dry lake activities and top speed runs After the war drag racing became organized with the formation of the NHRA and during the 1950s many tracks were built across America to accommodate the racers Technology in the 1950s centered on the manufacturers updating old flathead designs into newer overhead valve designs and the horsepower race really started to heat up In many forms of racing the 1960s brought technological evolution The decade began with big engines in even bigger stock chassis and ended with purpose built race only chassis fiberglass bodies fuel injection nitro methane and blowers Quarter mile times that were in the 13 second range in the beginning of the decade were in the 7 second range by the end New classes were formed dedicated cars were built for them and many racers themselves became recognized names in the sports landscape In *Drag Racing in the 60s The Evolution in Race Car Technology* veteran author Doug Boyce takes you on a ride through the entire decade from a technological point of view rather than a results based one Covered are all the classes including Super Stocks Altered Wheelbase cars which led to Funny Cars Top Fuelers Gassers and more **The Dawn of Pro Stock** Steve Reyes,2013-01-15 Great vintage photos of early Pro Stockers Includes all the early heroes The muscle car era s ultimate drag strip doorslammers Cover *Match Race Mayhem* Doug Boyce,2017-06-14 Relive or discover the exciting history of match racing through the cars drivers rivalries events and everything that was fun about match racing in drag racing s golden era This volume by veteran drag race author Doug Boyce is enhanced with wonderful vintage photography provided by fans and professionals in attendance Drag racing is a very regulated sport In the history of the NHRA IHRA and other sanctioning bodies many classes exist in an effort to make sure the cars racing against each other are as equal as possible It is a noble if not futile pursuit Two cars face off that have very similar statistics in terms of weight transmission type fuel type estimated horsepower and all other sorts of measurables The byproduct is that often the races that were fair were not the races that the fans wanted to see During the golden age of drag racing fans didn t care as much about class racing as much as they wanted to see scores settled rivalries battled and interesting matchups There were the manufacturer rivalries Ford versus Chevy Chevy versus Mopar Mopar versus Ford as well as numerous driver rivalries Match races were also a great way to feature wildly popular cars that no longer had a class in which to compete yet the fans still wanted to see them So popular and intense were these races that many track promoters didn t bother to promote class racing at all Instead they used the match races as headliners similar to the marquee at your local arena or a billboard in Las Vegas all resulting in putting more fans in the stands And the drivers loved it too Although the prize money for national

events was fairly average for the day the extra appearance fees and prize money to lure the most popular match racers to events increased the driver's take exponentially. Many of the most popular pro drivers quit class racing altogether just to go match racing. If you are a fan of any class of drag racing from any era Match Race Mayhem Drag Racing's Grudges Rivalries and Big Money Showdowns is a fun addition to your racing library. *Quarter-mile Muscle!* Larry Davis, 2005 8 1 2 x 11 100 color photos 200 b/w photos In many ways drag racing spawned the muscle car era of the 60s. Super Stock drag racing was huge in the early 60s and the factories encouraged their teams' success by building high power lightweight cars that'd be sure hits at the drags. Then in '64 Pontiac introduced the GTO with the classic small car big engine formula that hot rodders had been using for years. Other manufacturers responded with their own pony cars and muscle cars and for nearly 10 years muscle cars ruled the drags. *Quarter Mile Muscle* covers the development and success of the muscle cars at the drags in all classes from Super Stock to the early muscle car based funny cars. Special attention is paid to low production factory cars that were intended specifically for the drags cars like the COPO Camaros Ford Thunderbolts and the dealer built specials from Yenko Motion and others. **Drag Racing: Quarter Mile Thunder** Ed Radlauer, 1966 *Dyno Don* Doug Boyce, 2018-07-16 Many fans of drag racing consider the most interesting era to be from the 1950s through the 1970s the years when the sport really took off. During that period so much changed from a speed and technology standpoint that people often refer to this time as the golden age of drag racing. Drivers often became associated with a particular manufacturer such as Chevy Ford or Chrysler through sponsorship factory team rides or sometimes simply their own preference. The more successful drivers became household names in the drag racing community. Chevy had Grumpy Jenkins Pontiac had Arnie the Farmer Beswick Mopar had Sox Martin and Dandy Dick Landy and Ford's most successful driver of the era was the legendary Dyno Don Nicholson. Nicholson's first wins on a national level were actually in the early 1960s in Chevrolet products. He became extremely successful on the match race circuit. Then in 1964 he switched over to Mercury with the new Comet after General Motors enacted a factory ban on racing activities. He won 90 percent of his match races that year. He stuck with Ford and Mercury products and won throughout the 1960s and 1970s even after Ford also pulled the plug on factory team sponsorship. He made it to the final rounds in nearly 50 national events during that period in addition to winning championships awards and match races along the way. If you are a fan of a certain era of racing a Ford fan or certainly a Dyno Don fan this book will be a welcome addition to your library. *Drag Racing Fuel Altered* Photo Archive Lou Hart, 2007-04-27 The Fuel Altered one of the most brutal and exciting cars that ever covered the quarter mile consisted of a wheelbase average less than 100 inches that was fitted with a blown supercharged 1500 horsepower engine running on Nitro. With a low center of gravity the Altered was often compared to a 4 000 pound raging bull as the driver had all he could handle keeping these beasts on the track. From flatheads to Nitro burning monsters see daredevils Mooneyham Sharp Gabby Bleeker John Forska Willie Borsch Dale Emery Leon Fitzgerald Big Glenn Way Don Green Sush Matsubara Leroy Chadderton
