The Female Paradigm IGNACIO IRIARTE Y ALEXANDER IRIARTE,2011-03-11 From a historical perspective we argue that since the beginning of time males have done a very poor job as leaders of societies Since recorded history more than fourteen thousand wars have been fought on this planet and the level of destruction waste and human suffering is incalculable We believe that by

replacing most of the male world leaders with female leaders we could solve or drastically reduce many of the problems afflicting humanity We propose that females with their less aggressive nature could manage to replace the obscene amount of energy and resources used for weapons and military purposes in exchange for social and educational programs that would solve world problems such as poverty and famine and promote world peace **Beating the Odds** Mary Ellen
