Queerly, Queering Motherhood Shelley M. Park, 2013-03-11 Bridging the gap between feminist studies of motherhood and queer theory *Mothering Queerly* *Queering Motherhood* articulates a provocative philosophy of queer kinship that need not be rooted in lesbian or gay sexual identities Working from an interdisciplinary framework that incorporates feminist philosophy and queer psychoanalytic poststructuralist and postcolonial theories Shelley M Park offers a powerful critique of an ideology she terms monomaterialism Despite widespread cultural insistence that every child should have one and only one real mother many contemporary family constellations do not fit this mandate Park highlights the negative consequences of this ideology and demonstrates how families created through open adoption same sex parenting divorce and plural marriage can be sites of resistance Drawing from personal experiences as both an adoptive and a biological mother and juxtaposing these autobiographical reflections with critical readings of cultural texts representing multi mother families Park advocates a new understanding of postmodern families as potentially queer coalitional assemblages held together by a mixture of affection and critical reflection premised on difference
