The Greatest Sediton is Silence William Rivers Pitt,2003-05-20 This caustic critique of the last four years of American government gives voice to the growing tide of dissent and outrage with America s leaders both inside the country and in the wider world This book argues that under George W Bush America makes a mockery of the values of liberty and truth that it purports to stand for and that it is now more important than ever to speak out It reveals how the crisis in America was engineered by a group of Christian conservatives whose attempts in 1998 to bring down the Clinton government led to the perversion of the American electoral process resulting in the illegitimate installation of George W Bush into the Presidency In the aftermath of September 11th America has in many senses lost its way Citizens are counselled to watch what they say by the White House just as questions of deadly import are ignored by the government and the media In their rush to defend liberty George Bush and his allies are actually endangering the freedom of the individual as laid down in international law Yet how do we save freedom by limiting it Why after all this time have there been no answers regarding what really happened on 9 11

10 to 25 David Yeager,2024-08-08 Acclaimed developmental psychologist David Yeager reveals the new science of motivating young people in this groundbreaking book It is a must read for parents educators and mentors

Required reading for anyone who aspires to be a wise influence on the young people they care about Angela Duckworth One of the most fascinating and important books of the past decade It will change millions of lives Carol Dweck This book is life changing a must read for anyone who works with young people Laurie Santos Professor of Psychology at Yale University and host of The Happiness Lab podcast An important and extremely useful book Andrew Huberman

10 to 25 David Yeager explains the emerging science of adolescent and young adult brains to reveal how we can engage teach and support the young people in our lives Neuroscientists have discovered that around age ten changes in the brain spur young people to crave socially rewarding experiences such as pride

admiration and respect and to become highly averse to social pain This sensitivity to status and respect continues into the mid twenties 10 to 25 helps adults to use this science to learn how to encourage young people and avoid frustrating patterns of miscommunication and conflict Yeager explains how to adopt the mentor mindset a leadership style that s attuned to young people s need for status and respect by following a few highly effective and easy to learn practices These include validating young people s perspectives rather than dismissing them asking them questions rather than telling them what to do and holding them to high standards rather than coddling them Yeager s scientific experiments have shown these practices reduce a wide variety of behaviour problems including mental health issues unhealthy eating stress and purposelessness Young people in this age group are poised to learn grow and accomplish incredible things if only we can tap into the basic neurobiological systems that drive their motivation and behaviour 10 to 25 offers long term strategies to help nurture well adjusted independent accomplished young adults and is necessary reading for all parents educators and mentors
