The Reader, the Body, and the Book Natasha Anderson, 2025-05-15 How do books dazzle disgust or delight audiences What entices readers to track characters trials and tribulations Why do stories echo across the ages with their intensity Books with vibrant somatic elements prompt us to identify with protagonists who fall in love flee from pursuers and fight for survival enhancing the awareness of our own bodies This transatlantic diachronic study of 19th century literature analyzes the rising complexity of sensorimotor descriptions in four major Victorian novels Anne Brontë's *The Tenant of Wildfell Hall* Charlotte Brontë's *Villette* Henry James's *The Portrait of a Lady* and Thomas Hardy's *Tess of the d'Urbervilles* Based on phenomenological insights of French philosophers Maurice Merleau-Ponty and Paul Ricœur this groundbreaking research on visceral reading experiences in British and U.S. American fiction illuminates the immersive appeal of bodily motions and sensations in books film adaptations and digital resources of the 21st century

The Poetry Bug John Tennent, 2015 Throughout history poets have been drawn to write about insects and entomologists have been drawn to try their hand at poetry The concentrated industry of the ant and the delicate beauty of the butterfly the rituals of the death watch beetle and the ethereal vision of glow worms at dusk have all been captured in verse In the pages of this anthology Tennent brings together classic poets such as Virgil and Byron and modern writers such as Pam Ayres Spike Milligan and Peter Redgrove alongside a wealth of other poets and amateur poets from different continents to explore the mysterious world of the insect through poetry

CMJ New Music Report, 1999-04-19 *CMJ New Music Report* is the primary source for exclusive charts of non commercial and college radio airplay and independent and trend forward retail sales *CMJ's* trade publication compiles playlists for college and non commercial stations often a prelude to larger success

The Architecture of Open Source Applications, Volume II Amy Brown, Greg Wilson, 2012 Architects look at thousands of buildings during their training and study critiques of those buildings written by masters In contrast most software developers only ever get to know a handful of large programs well usually programs they wrote themselves and never study the great programs of history As a result they repeat one another's mistakes rather than building on one another's successes This second volume of *The Architecture of Open Source Applications* aims to change that In it the authors of twenty four open source applications explain how their software is structured and why What are each program's major components How do they interact And what did their builders learn during their development In answering these questions the contributors to this book provide unique insights into how they think

Forthcoming Books Rose Arny, 2004 *Science Fraud: Darwin's Plagiarism of Patrick Matthew's Theory* Mike Sutton, 2023 Patrick Matthew in 1831 originated the complete theory of evolution by natural selection in his book *On Naval Timber and Arboriculture* and did so before Charles Darwin and Alfred Wallace claimed to independently replicate it in 1858 Unjustly and against the Arago convention on priority a ruling that gives origination of any science theory to the first to publish Matthew has been illicitly denied his priority on the grounds he never influenced anyone with his breakthrough

Today Big Data research has uncovered Darwin's science fraud by plagiarism revealing evidence which proves beyond all reasonable doubt that he and Alfred Wallace both independently plagiarised the theory of evolution by natural selection from Patrick Matthew. Books have been newly unearthed in the publication record to show that at least 30 people cited Matthew's work in published literature before 1858 and that several were known influencers of Darwin's and Wallace's work in the field. Additionally several people in Darwin's and Wallace's social circles were first to be second into print using original terms coined by Matthew in his bombshell breakthrough book. This book reveals all the newly unearthed data and essentially explains it alongside the deplorable treatment of Patrick Matthew in scholarly historical context. Dr Mike Sutton further reveals using social science participatory observation methods and experimental results how members of the so called Darwin Industry enabled and facilitated by the deliberate publication of falsehoods and other grossly misleading editing on Wikipedia have disgracefully worked to re bury these newly unearthed facts by means of knee jerk blind sight ignorant rejection blatant and deliberate fact denial censorship persistent and serious workplace harassment obscene social media abuse poison pen emails lies mischievous misrepresentation and repeat research plagiarism. *The Writers Directory*, 2004

William Hunter's World Nick Pearce, 2017-07-05 Despite William Hunter's stature as one of the most important collectors and men of science of the eighteenth century and the fact that his collection is the foundation of Scotland's oldest public museum The Hunterian until now there has been no comprehensive examination in a single volume of all his collections in their diversity. This volume restores Hunter to a rightful position of prominence among the medical men whose research and amassing of specimens transformed our understanding of the natural world and man's position within it. This volume comprises essays by international specialists and are as diverse as Hunter's collections themselves dealing as they do with material that ranges from medical and scientific specimens to painting prints books and manuscripts. The first sections focus upon Hunter's own collection and his response to it while the final section contextualises Hunter within the wider sphere. A special feature of the volume is the inclusion of references to the Hunterian's web pages and on line databases. These enable searches for items from Hunter's collections both from his museum and library. Locating Hunter's collecting within the broader context of his age and environment this book provides an original approach to a man and collection whose importance has yet to be comprehensively assessed. *The Athenaeum*, 1844 *The Writers Directory* 2008 Michelle Kazensky, 2007-06 Features bibliographical biographical and contact information for living authors worldwide who have at least one English publication. Entries include name pseudonyms addresses citizenship birth date specialization career information and a bibliography.
