Corporate Finance: Theory and Practice in Emerging

Economies Sunil Mahajan, 2020-12-03 The book introduces corporate finance to first year students in business schools Basic subjects such as marketing human resources and finance are all fundamental to the learning of a business manager A book on these subjects must emphasise learning that is conceptual in nature and at the same time application oriented This book attempts to achieve this in a manner that is comprehensive and shorn of complexity It examines the practice of finance without diluting theory and conceptual knowledge Corporate finance is necessarily quantitative in nature and the book duly places emphasis on that aspect It ensures the primacy of ideas and concepts utilising numbers as supportive elements

Modern Corporate Finance, Investments and Taxation Peter Brusov, Tatiana Filatova, Natali Orekhova, Mukhadin Eskindarov, 2015-06-02 This monograph is devoted to the modern theory of capital cost and capital structure and its application to the real economy In particular it presents a possible explanation to the causes of global financial crisis The authors of the book modify the theory of Nobel Prize winners Modigliani and Miller to describe an alternative theory of capital cost and capital structure that can be applied to corporations with arbitrary lifetime and investment projects with arbitrary duration The authors illustrate their theory with examples from corporate practice and develop investment models that can be applied by companies in their financial operations

Modern Corporate Finance, Investments, Taxation and Ratings Peter Brusov, Tatiana Filatova, Natali Orekhova, Mukhadin Eskindarov, 2018-11-11 This monograph is devoted to a modern theory of capital cost and capital structure created by this book's authors called the Brusov Filatova Orekhova BFO theory and its application to the real economy BFO theory promises to replace the traditional theory of capital cost and capital structure by Nobel laureates Modigliani and Miller This new theory in particular presents a possible explanation to the causes of the recent global financial crisis The authors of the book describe the general theory of capital cost and capital structure that can be applied to corporations of arbitrary age or with arbitrary lifetime and investment projects with arbitrary duration The authors illustrate their theory with examples from corporate practice and develop investment models that can

be applied by companies in their financial operations This updated second edition includes new chapters devoted to the application of the BFO theory in ratings banking and other areas The authors also provide a new approach to rating methodology highlighting the need for including financial flow discounting the incorporation of rating parameters in particular financial ratios into the modern theory of capital structure BFO theory This book aims to change our understanding of corporate finance investments taxation and rating procedures The authors emphasize that the most used principles of financial management should be changed in accordance to BFO theory

Capital Structure in the Modern World Anton Miglo, 2025-06-13 This book focuses on microeconomic foundations of capital structure theory It combines theoretical results with a large number of examples exercises and applications The book examines fundamental ideas in capital structure management some of which are still not very well understood in the business community such as Modigliani and Miller's irrelevance result trade off theory pecking order theory asset substitution credit rationing and debt overhang The second edition also covers capital structure issues related to recent developments in financial technology including crowdfunding and token issues and discusses significant differences between these innovative ways of firm financing compared to traditional debt and equity Chapters also discuss the ways in which financial economists were forced to look critically at capital structure after the financial crisis of 2007 2009 and the COVID 19 pandemic as the problems faced by many companies stemmed from their financing policies Further the book analyzes links between capital structure and firm's performance corporate governance firm's strategy and flexibility and covers such topics as life cycle approach to capital structure management capital structure of small and start up companies corporate financing versus project financing and examples of optimal capital structure analyses for different companies This comprehensive guide to capital structure theory will be of interest to all students academics and practitioners seeking to understand this fast developing and critical area

On the Methodology of Financial Economics Kavous Ardalan, 2023-06-01 Utilizing a multi paradigmatic approach in considering the scientific methodology of mainstream financial economics and suggesting improvements this book identifies eleven biases of the scientific methodology of mainstream financial economics namely intellectual bias local bias fad bias ideological bias automaticity bias confirmation bias cultural bias stereotyping bias under productivity bias homogeneity bias and isolation bias

Commonwealth Caribbean Company Law Andrew Burgess, 2017-09-25 In the last twenty five years company law in the Commonwealth Caribbean has undergone dramatic changes from a model influenced by English law to a new harmonised collection of regional legislation based on the Caricom and CLI model Acts that vary substantially across Caricom member states The variation within Caribbean company law presents an enormous challenge both in terms of the breadth of the subject and in addressing the difference in provisions of one state's Company Law Act as opposed to another Using the Caricom model Act and CLI model Act as a basis for its structure *Commonwealth Caribbean Company Law* examines and compares regional implementation of company law in an accessible and comprehensive manner that will be

invaluable to students and practitioners in the region
