Modern School Business Administration A Planning Approach Peabody College Education Leadership Series:

Modern School Business Administration James W. Guthrie, 2008 This text in ABL's new Educational Leadership series from Peabody College covers historical and current trends in leadership in a very practical way using cases and a problem solving approach as vehicles for examination The text was developed by a leading scholar in educational leadership as part of a series from one of the leading schools of education in the world It has a strong basis in current research and easy to use intuitive features It strikes an effective balance between the informational and the pedagogical It covers trends both historical and current in educational leadership The Modern approach of this book explores professional challenges performance expectations and operating conditions encountered by contemporary American school leaders The case studies and interactive pedagogy make this a very practical text *Effective Communication for District and School Administrators*

Theodore J. Kowalski, 2015-08-20 The book is a unique and necessary contribution to the literature on school administration Research theory and practice were melded to produce a book that can be used as a primary or supplemental text or as professional growth resource for practitioners Communication scholars especially since 1990 have concluded that competence must be defined and studied in the context of professions As such a growing number of medical schools law schools and business schools have integrated communication into their curricula This book provides a resource for such integration into the study and practice of district and school administration *Resources in Education*, 1997 **School**

Life, 1938 **Current Index to Journals in Education**, 1999 *The School Superintendent* Theodore J.

Kowalski, 2012-11-09 *The School Superintendent Theory Practice and Cases* is the essential guide to succeeding as a superintendent or as an administrator in another district level position Comprehensive in both theory and practice this textbook and reference guide examines the role and responsibilities of school district administration in professional social philosophical and political frames while balancing perspectives of rewards and challenges commonly expressed by school superintendents Important topics covered include the emerging role of superintendent as communicator the changing conditions in districts and schools inadequate funding for public schools and the treatment of policy administration leadership roles and community involvement Fully updated the Third Edition provides greater emphasis on the challenges facing novice superintendents new material on strategic planning and visioning new and expanded coverage of contemporary issues such as inadequate district funding and social challenges additional figures tables key terms and other helpful learning tools and more **Follow the Money** Sarah Reckhow, 2013-01-17 Some of the nation's wealthiest philanthropies including the Bill and Melinda Gates Foundation the Walton Family Foundation and the Broad Foundation have invested hundreds of millions of dollars in education reform With vast wealth and a political agenda these foundations have helped to reshape the reform landscape in urban education In *Follow the Money* Sarah Reckhow shows where and how foundation investment in education is occurring and presents in depth analysis of the effects of these investments within the two largest urban

districts in the United States New York City and Los Angeles In New York City centralized political control and the use of private resources have enabled rapid implementation of reform proposals Yet this potent combination of top down authority and outside funding also poses serious questions about transparency responsiveness and democratic accountability in New York Furthermore the sustainability of reform policies is closely linked to the political fortunes of the current mayor and his chosen school leader While the media has highlighted the efforts of drastic reformers and dominating leaders such as Joel Klein in New York City and Michelle Rhee in Washington D C a slower but possibly more transformative set of reforms have been taking place in Los Angeles These reforms were also funded and shaped by major foundations but they work from the bottom up through charter school operators managing networks of schools This strategy has built grassroots political momentum and demand for reform in Los Angeles that is unmatched in New York City and other districts with mayoral control Reckhow s study of Los Angeles s education system shows how democratically responsive urban school reform could occur pairing foundation investment with broad grassroots involvement Bringing a sharp analytical eye and a wealth of evidence to one of the most politicized issues of our day Follow the Money will reshape our thinking about educational reform in America
