Modes Of Uncertainty Anthropological Cases:

Modes of Uncertainty Limor Samimian-Darash, Paul Rabinow, 2015-07-16 The notion of risk while receiving a great deal of scholarly attention cannot fully explain the forms of uncertainty that we see around the world today Distinguishing between danger risk and uncertainty the essays in this book by a group of leading junior scholars consider problems of uncertainty in various domains finance and markets security and humanitarianism environment and health While not ignoring previous scholarship on risk this volume provides new analytical tools and case studies for understanding the many forms of uncertainty prevalent today What kinds of truth claims about the future are common What interventions are considered appropriate What modes of subjectivity are produced within these policy frameworks Modes of Uncertainty clears the path to answering these questions among others advancing our understanding of the forms of uncertainty that concern us all

Modes of Uncertainty Limor Samimian-Darash, Paul Rabinow, 2015-07-15 Modes of Uncertainty offers groundbreaking ways of thinking about danger risk and uncertainty from an analytical and anthropological perspective Our world the contributors show is increasingly populated by forms practices and events whose uncertainty cannot be reduced to risk and thus it is vital to distinguish between the two Drawing the lines between them they argue that the study of uncertainty should not focus solely on the appearance of new risks and dangers which no doubt abound but also on how uncertainty itself should be defined and what the implications might be for policy and government Organizing contributions from various anthropological subfields including economics business security humanitarianism health and environment Limor Samimian-Darash and Paul Rabinow offer new tools with which to consider uncertainty its management and the differing modes of subjectivity appropriate to it Taking up policies and experiences as objects of research and analysis the essays here seek a rigorous inquiry into a sound conceptualization of uncertainty in order to better confront contemporary problems Ultimately they open the way for a participatory anthropology that asks crucial questions about our contemporary state **The**

Kelly, Frédéric Keck, Christos Lynteris, 2019-01-15 Over the past decades infectious disease epidemics have come to increasingly pose major global health challenges to humanity The Anthropology of Epidemics approaches epidemics as total social phenomena processes and events which encompass and exercise a transformational impact on social life whilst at the same time functioning as catalysts of shifts and ruptures as regards human non human relations Bearing a particular mark on subject areas and questions which have recently come to shape developments in anthropological thinking the volume brings epidemics to the forefront of anthropological debate as an exemplary arena for social scientific study and analysis **The SAGE Handbook of Global Policing** Ben Bradford, Beatrice Jauregui, Ian Loader, Jonny Steinberg, 2016-07-14 The SAGE Handbook of Global Policing examines and critically retraces the field of

policing studies by posing and exploring a series of fundamental questions to do with the concept and institutions of policing and their relation to social and political life in today's globalized world The volume is structured in the following four parts

Part One Lenses Part Two Social and Political Order Part Three Legacies Part Four Problems and Problematics By bringing new lines of vision and new voices to the social analysis of policing and by clearly demonstrating why policing matters the Handbook will be an essential tool for anyone in the field **Haunting Futures** Marek Pawlak,2024-12-01 The 2008

economic collapse in Iceland sent its residents into a destabilising crisis with far reaching temporal and affective consequences **Haunting Futures** explores how the complex relationships of this unstable past and the anticipatory modes of the ongoing present keep Icelanders and the Polish migrant community in their midst alert to looming futures in crisis It offers insights into timely crisis ridden impacts and imaginings migration processes and social understandings and practices Through its attention to how people engage with crisis temporally and affectively the book presents the crisis not simply as an isolated and distressing event but as a spectre embodied in time through ongoing anticipation **The Anthropology of**

Police Kevin Karpiak,William Garriott,2018-04-17 What are the potential contributions of anthropology to the study of police Even beyond the methodological particularities and geographic breadth of cultural anthropology there are a set of conceptual and analytical traditions that have much to bring to broader scholarship in police studies Including original and international contributions from both senior and emerging scholars this pioneering book represents a foundational document for a burgeoning field of study the anthropology of police The chapters in this volume open up the question of police in new ways mining the disciplinary legacies of anthropology in order to discover new conceptual tools methods and pedagogies reworking relationships between police public and researcher in ways that open up new avenues for exploration at the same time as they articulate new demands and retracing a hauntology that through interactions with individuals and collectives constitutes a body politic through the figure of police Illustrating the various ways that anthropology enables a reassessment of the police violence relationship with a broad consideration of the human stakes at the center this book will be of interest to criminologists sociologists anthropologists and the broad interdisciplinary field invested in the study of policing order making and governance **Horizon Work** Adriana Petryna,2024-08-20 This book argues that a world characterized by runaway climate change needs radically new models of scientific and practical expertise to effectively address the emergency

Cosmopolitan Moment, Cosmopolitan Method Nigel Rapport,Huon Wardle,2023-11-17 In conversation and in the company of a new generation of scholars working in the field Nigel Rapport and Huon Wardle re explore the terrain and meaning of cosmopolitan studies now This book offers a new survey and theorisation of cosmopolitan research a burgeoning topic responding to increasingly complex patterns of human interaction in world society It considers the question of cosmopolitan methodology What are the methods needed for or elicited by studying cosmopolitan situations And how are we to remain faithful to the heteronomous human interiority and intentionality from which cosmopolitan moments are constructed The volume focuses on the open ended moment of ethnographic fieldwork that generates the concepts and methods needed to understand contemporary cosmopolitanisation The chapters cover a wide range of ethnographic

situations and open up debate on what are the opportunities and responsibilities of a cosmopolitan anthropology in its exploration of human difference and commonality The Composition of Anthropology Morten Nielsen, Nigel Rapport, 2017-12-14 How do anthropologists write their texts What is the nature of creativity in the discipline of anthropology This book follows anthropologists into spaces where words ideas and arguments take shape and explores the steps in a creative process In a unique examination of how texts come to be composed the editors bring together a distinguished group of anthropologists who offer valuable insight into their writing habits These reflexive glimpses into personal creativity reveal not only the processes by which theory and ethnography come in particular cases to be represented on the page but also supply examples that students may follow or adapt Innocent Until Proven Muslim Maha Hilal, 2022-01-25 On September 11 2001 nineteen terrorists hijacked four airplanes and carried out attacks on the United States killing more than three thousand Americans and sending the country reeling Three days after the attacks President George W Bush declared This is a day when all Americans from every walk of life unite in our resolve for justice and peace Yet in the days following Bush declared a War on Terror which would result in years of Muslims being targeted on the basis of collective punishment and scapegoating In 2009 President Barack Obama said America must play its role in ushering in a new era of peace Instead Obama perpetuated the War on Terror s infrastructure that Bush had put in place rendering his words entirely empty President Donald Trump s overtly Islamophobic rhetoric added fuel to the fire stoking public fears to justify the continuation of the War his predecessors had committed to In Innocent Until Proven Muslim scholar and organizer Dr Maha Hilal tells the powerful story of two decades of the War on Terror exploring how the official narrative has justified the creation of a sprawling apparatus of state violence rooted in Islamophobia and excused its worst abuses Hilal offers not only an overview of the many iterations of the War on Terror in law and policy but also examines how Muslim Americans have internalized oppression how some influential Muslim Americans have perpetuated collective responsibility and how the lived experiences of Muslim Americans reflect what it means to live as part of a suspect community Along the way this marginalized community gives voice to lessons that we can all learn from their experiences and to what it would take to create a better future Twenty years after the tragic events of 9 11 we must look at its full legacy in order to move toward a United States that is truly inclusive and unified
