Adams, 2015-10-29 *The Sexual Politics of Meat* is Carol Adams inspiring and controversial exploration of the interplay between contemporary society's ingrained cultural misogyny and its obsession with meat and masculinity First published in 1990 the book has continued to change the lives of tens of thousands of readers into the second decade of the 21st century Published in the year of the book's 25th anniversary the Bloomsbury Revelations edition includes a substantial new afterword including more than 20 new images and discussions of recent events that prove beyond doubt the continuing relevance of Adams revolutionary book *The Pornography of Meat: New and Updated Edition* Carol J. Adams, 2020-10-29 For 30 years since the publication of her landmark book *The Sexual Politics of Meat* Carol J Adams and her readers have continued to document and hold to account the degrading interplay of language about women domesticated animals and meat in advertising politics and media Serving as sequel and visual companion *The Pornography of Meat* charts the continued influence of this language and the fight against it This new edition includes more than 300 images most of them new and brings the book up to date to include expressions of misogyny in online media and advertising the MeToo movement and the impact of Donald Trump and white supremacy on our political language Never has this book or Adams's analysis been more relevant *Eating Culture* Ron Scapp, Brian Seitz, 1998-07-16 Eating has never been simple and contemporary eating practices seem more complicated than ever demanding a multidimensional analysis that strives not for a reductive overview but for a complex understanding *Eating Culture* offers a number of diverse outlooks on some of the prominent practices and issues associated with the domain of eating in contemporary culture Lavishly illustrated with nineteen photographs and eleven historical postcards the book brings to bear contemporary interdisciplinary thinking on a topic that has been widely but not critically discussed in the media Contributors include Carol Adams Marianna Beck Susan Bordo Priscilla Ferguson Joanne Finkelstein Dianna Fuss Deborah R Geis bell hooks David F Krell Steven F Kruger Alfonso Lingis Mary Lukanuski Gary Paul Nabhan Ed Schiffer Stephen Steinberg Jeff Weinstein Allen S Weiss Doris S Witt and Sharon Zukin *The Ethics of Eating Animals* Bob Fischer, 2019-09-05 Intensive animal agriculture wrongs many many animals Philosophers have argued on this basis that most people in wealthy Western contexts are morally obligated to avoid animal products This book explains why the author thinks that's mistaken He reaches this negative conclusion by contending

that the major arguments for veganism fail they don't establish the right sort of connection between producing and eating animal based foods Moreover if they didn't have this problem then they would have other ones we wouldn't be obliged to abstain from all animal products but to eat strange things instead e.g. roadkill insects and things left in dumpsters On his view although we have a collective obligation not to farm animals there is no specific diet that most individuals ought to have Nevertheless he does think that some people are obligated to be vegans but that's because they've joined a movement or formed a practical identity that requires that sacrifice This book argues that there are good reasons to make such a move albeit not ones strong enough to show that everyone must do likewise

Destabilising Manhood and Masculinity Bob Pease, 2025-07-01 This book addresses the debate within feminism and critical studies of men and masculinities on whether men should be encouraged to develop alternative masculinities or whether they should be challenged to renounce masculinity altogether It argues that men have to move beyond the illusion of masculinity to address their habitual ways of relating that reinforce dominance and oppression and instead foster subjectivities that are multiple and fluid Tracing the nature of the problem associated with men masculinity and gender Pease examines the implications of feminist engagements with Gilles Deleuze and Felix Guattari to explore the possibilities of destabilising and moving beyond manhood and masculinity The book will be of interest to scholars in Sociology Psychology Social Work and Environmental and Gender Studies especially as they relate to critical studies of men and masculinities

America's Food Harvey Blatt, 2011-02-25 The complete story of what we don't know and what we should know about American food production and its effect on health and the environment We don't think much about how food gets to our tables or what had to happen to fill our supermarket's produce section with perfectly round red tomatoes and its meat counter with slabs of beautifully marbled steak We don't realize that the meat in one fast food hamburger may come from a thousand different cattle raised in five different countries In fact most of us have a fairly abstract understanding of what happens on a farm In America's Food Harvey Blatt gives us the specifics He tells us for example that a third of the fruits and vegetables grown are discarded for purely aesthetic reasons that the artificial fertilizers used to enrich our depleted soil contain poisonous heavy metals that chickens who stand all day on wire in cages choose feed with pain killing drugs over feed without them and that the average American eats his or her body weight in food additives each year Blatt also asks us to think about the consequences of eating food so far removed from agriculture why unhealthy food is cheap why there is an International Federation of Competitive Eating what we don't want to know about how animals raised for meat live die and are butchered whether people are even designed to be carnivorous and why there is hunger when food production has increased so dramatically America's Food describes the production of all types of food in the United States and the environmental and health problems associated with each After taking us on a tour of the American food system not only the basic food groups but soil grain farming organic food genetically modified food food processing and diet Blatt reminds us that we aren't powerless Once we know the facts about food in America we can change
