Power of Personality Eric Gee, 2024-04-16 Conformity is the new black there is safety in numbers so what happens when individuals come into conflict with the shoe values they've been forced to wear from an early age They will either submit to the pressure and lose sight of themselves or fight like hell and be socially excommunicated Too often personality distinctions are disowned and labeled as weakness or we default to accepting surface differences in the name of diversity If we truly want to coexist with one another we must learn that even our most sacred values deviate from person to person and it's that diversity that makes humanity strong The Power of Personality demystifies the sixteen different personality types by teaching the reader how to identify and appreciate their own unique type and that of others By re-examining previously held assumptions on personality birth order cultural stereotypes extroversion vs introversion type A personalities and debunking clarifying them the reader will be able to understand a person deeper than that person understands themselves Considering the existential threat of our current fractured sociopolitical climate tearing itself from within this skill is not a luxury it's a necessity This is how our species survives 16 easy to remember animal archetypes All the fun of zodiac signs and all the empiricism of Joseph

Campbell It s for romantics and pragmatists An instant conversation centerpiece that everyone can relate to its ideas were even featured on an episode of Apple TV s Mythic Quest The Power of Personality is the best kind of non fiction book one whose subject matter will appeal to all readers because its subject matter is the reader A step by step guide on how to personality type Most books consist of a simplistic often inaccurate test followed by descriptions and prescriptions But a treatment can be damaging if the diagnosis is wrong The Power of Personality is unique in that it trains you to be the test No more arbitrary questions No more mistyping No more damage A personal voice that places the reader squarely in the front seat for a breezy fresh intellectual joyride that uses humor and pop culture in tandem with the author s twenty plus years of experience in education and life coaching The Power of Personality is groundbreaking in that it will not only change the way readers see the world but will empower them to reexamine their relationships within it Gone will be the daze of social disconnect and miscommunication This book is a must read a harbinger of a Youtopia where regardless of whether people are shoes purses hats or polka dot cardigans everyone is seen heard and accepted for who they truly are

Letters of C. G. Jung C.G Jung,2015-06-05 In May 1956 in his eighty second year Jung first discussed with Gerhard Adler the question of the publication of his letters Over many years Jung had often used the medium of letters to communicate his ideas to others and to clarify the interpretation of his work quite apart from answering people who approached him with genuine problems of their own and simply corresponding with friends and colleagues Many of his letters thus contain new creative ideas and provide a running commentary on his work From some 1 600 letters written by Jung between the years 1906 1961 the editors have selected over 1 000 Volume 2 contains 460 letters written between 1951 and 1961 during the last years of Jung s life when he was in contact with many people whose names are familiar to the English reader These include Mircea Eliade R F C Hull Ernest Jones Herbert Read J B Rhine Upton Sinclair and Fr Victor White Volume 2 also contains an addenda with sixteen letters from the period 1915 1946 and a subject index to both volumes The annotation throughout is detailed and authoritative
