Self Observation Red Hawk:

Self Observation Red Hawk, 2012-07-23 This book is an in depth examination of the much needed process of self study known as self observation We live in an age where the attention function in the brain has been badly damaged by TV and computers up to 90 percent of the public under age 35 suffers from attention deficit disorder This book offers the most direct non pharmaceutical means of healing attention dysfunction The methods presented here are capable of restoring attention to a fully functional and powerful tool for success in life and relationships This is also an age when humanity has lost its connection with conscience When humanity has poisoned the Earth's atmosphere water air and soil when cancer is in epidemic proportions and is mainly an environmental illness the author asks What is the root cause And he boldly answers Failure to develop conscience Selfobservation he asserts is the most ancient scientific and proven means to develop this crucial inner guide to awakening and a moral life This book is for the lay reader both the beginner and the advanced student of self observation No other book on the market examines this practice in such detail There are hundreds of books on self help and meditation but almost none on self study via self observation and none with the depth of analysis wealth of explication and richness of experience which this book offers Red Hawk author of 5 collections of poetry was the Hodder Fellow at Princeton University 1992-93 and is currently a full professor at the University of Arkansas Monticello He has practiced self observation for over 30 years under the guidance of the Gurdjieff Society of Arkansas meditation master Osho Rajneesh and spiritual teacher Lee Lozowick

Self Observation: The Awakening of Conscience Red Hawk, 2009 Presents an in depth examination of the much needed process of self study known as self observation This book offers direct non pharmaceutical means of healing attention dysfunction It is suitable for the lay reader both the beginner and the advanced student of self observation

Self Remembering Red Hawk, 2015-05-11 With hundreds of books on the market today urging readers to develop mindfulness pointing to the condition of awakening that most religious philosophical traditions aim toward this new addition by Red Hawk stands head and shoulders above the crowd It offers detailed practical guidelines that allow one to know with certainty not from imagination theory thought or lying when one is Present and Awake it details the objective feedback mechanisms available to everyone for attaining this certainty Am I awake now How do I know Sincere readers will find that help in answering these two questions is invaluable and life changing Written from the perspective of a practitioner of more than thirty years one who has studied the significant work of his predecessors received instruction from two spiritual masters Osho Rajneesh and Mister Lee Lozowick and trained rigorously within daily life This book is the first detailed examination of the Practice of Presence called self remembering in the Gurdjieff tradition The author's aim is to give general guidelines in this practice discuss its implications and then offer specific instruction Self Remembering The Path to Non Judgmental Love is meant to be a companion piece volume ii to the author's previous book Self Observation The Awakening of Conscience which is fast becoming a classic Taken together they present the most

detailed examination of the practice available in English He clearly points out that self remembering is only one half of a foundational spiritual practice called self observation self remembering Where other authors teachers have gone wrong in the past is to take only one half of this practice and consider it the whole entire unto itself Mister Gurdjieff s student A R Orage 1873 1934 made this mistake with self observation contemporary teacher Robert Burton made a similar error with his book also titled Self Remembering While P D Ouspensky speaks of the practice of self remembering in his seminal book In Search of the Miraculous and Rodney Collin in The Theory of Celestial Influence there has not been a book length study on self remembering that examines the practice from the many angles that Red Hawk s does His chapters cover such diverse yet integrated topics as The Removal of Self Importance Kaya Sadhana or the wisdom of the body and Separation Grief i e addressing the terror of our current situation without denial or dramatics

MOTHER GURU Red Hawk,2014-08-20 Mother Guru is a collection of refined devotional poetry in the tradition of Hafiz and Rumi whose poems of love continue to inspire millions throughout the world The fact that this poetry appears in contemporary dress is more gracious still The author Red Hawk is a widely published and awardwinning poet professor of English at the University of Arkansas at Monticello He is also an unabashed disciple of a great contemporary Master Mister Lee Lozowick 1943 2010 and one who is willing to bare that discipleship in poetry written as prayer expressly for and with his guru in mind and heart In this sense Mother Guru is a daring book and courageous as the author overlooks scholarly reputation trusting rather in the love that infuses what he writes He also risks the opprobrium of those who limit the expression of the spiritual to sweet words and lofty sentiments These are poems of a truly broken heart pleading poems begging poems prayers and curses bawdy ironic hilarious tough minded sometimes angry often just broken Few books of poetry today attempt to traverse this razor s edge fewer still can do so with respect dignity and passion Mother Guru is a guidebook to such a challenge and offers inspiration and a call to profound honesty to the sincere seeker of any mystical tradition
