Jeremy Telman, 2016-08-26 This volume explores the reasons for Hans Kelsen s lack of influence in the United States and proposes ways in which Kelsen s approach to law philosophy and political democratic and international relations theory could be relevant to current debates within the U S academy in those areas Along the way the volume examines Kelsen s relationship and often hidden influences on other members of the mid century Central European migr community whose work helped shape twentieth century social science in the United States The book includes major contributions to the history of ideas and to the sociology of the professions in the U S academy in the twentieth century Each section of the volume explores a different aspect of the puzzle of the neglect of Kelsen s work in various disciplinary and national settings Part I provides reconstructions of Kelsen s legal theory and defends that theory against negative assessments in Anglo American jurisprudence Part II focuses both on Kelsen s theoretical views on international law and his practical involvement in the post war development of international criminal law Part III addresses Kelsen s theories of democracy and justice while placing him in dialogue with other major twentieth century thinkers including two fellow migr scholars Leo Strauss and Albert Ehrenzweig Part IV explores Kelsen s intellectual legacies through European and American perspectives on the interaction of Kelsen s theoretical approach to law and national legal traditions in the United States and Germany Each contribution features a particular applications of Kelsen s approach to doctrinal and interpretive issues currently of interest in the legal academy The volume concludes with two chapters on the nature of Kelsen s legal theory as an instance of modernism

Marital and Sexual Ethics in Islamic Law Roshan Iqbal, 2023-03-14 Roshan Iqbal traces the intellectual legacy of the exegesis of Qur an 4 24 which is used as the proof text for the permissibility of mut a temporary marriage and asks if the use of verse 4 24 for the permissibility of mut a marriage is justified within the rules and regulations of Qur anic hermeneutics Iqbal examines seventeen Qur an commentaries the chronological span of which extends from the first extant commentary to the present day in three major Islamicate languages Iqbal concludes that doctrinal self identity rather than strictly philological

analyses shaped the interpretation of this verse As Western academia's first comprehensive work concerning the intellectual history of marriage and sexual ethics this work illustrates the power of sectarian influences on how scholars have interpreted verse 4:24 This book is the only work in English that includes a plurality of voices from minor schools Ibadi Ashari Zaidi and Ismaili largely neglected by Western scholars alongside major schools and draws from all available sub genres of exegesis Further by revealing ambiguities in the interpretation of mut'a this work challenges accepted sexual ethics in Islamic thought as presented by most classical and many modern Muslim scholars and thus opens up space to theorize Islamic sexual ethics anew and contribute to this crucial conversation from the perspective of Muslim feminism

Conscience in Moral Life Jason J. Howard, 2014-03-19 The notion of conscience remains one of the most widely used moral concepts and a cornerstone of ordinary moral thinking This book explores where this widespread confidence in conscience stems from examining the history of conscience as a moral concept and its characteristic moral phenomenology Jason Howard provides a comprehensive reassessment of the function of conscience in moral life detailing along the way the manifold problems that arise when we believe our conscience is more reliable than is actually warranted The result is a step by step evaluation of our most accepted assumptions Howard goes on to argue from a phenomenological perspective that conscience is indispensable for understanding moral experience He capitalizes on a dialectical perspective developed by Hegel and Ricoeur in which conscience is seen as the recognition of the other and integrates this with work in the philosophy of emotion arguing that conscience is best seen in terms of the function it serves in moderating the moral emotions of shame guilt and pride
