Reaffirming Rehabilitation Criminal Justice Studies:

Reaffirming Rehabilitation Francis Cullen, Karen Gilbert, 2012-11-13 Reaffirming Rehabilitation 2nd Edition brings fresh insights to one of the core works of criminal justice literature This groundbreaking work analyzes the rehabilitative ideal within the American correctional system and discusses its relationship to and conflict with political ideologies Many researchers and policymakers rejected the value of rehabilitation after Robert Martinson's proclamation that nothing works Cullen and Gilbert's book helped stem the tide of negativism that engulfed the U S correctional system in the years that followed the popularization of the nothing works doctrine Now Cullen traces the social impact on U S corrections policy This new edition is appropriate as a textbook in corrections courses and as recommended reading in related courses It also serves as a resource for researchers and policymakers working in the field of corrections **Criminal Justice** George S. Bridges, Joseph G. Weis, Robert D. Crutchfield, 1996-02-22 This is a solid representation of criminological articles that are important to the discipline The important material from each article has been retained yet an undergraduate won't be overwhelmed The articles are germane and flow together a certain consistency in thought is presented to the student as opposed to interesting but often semi related articles This book is accessible and in several areas very enjoyable reading A L Marsteller Drury College Also by the Editors Crime Vol 1 and Juvenile Delinquency Vol 2 Why are these edited collections THE anthologies to use for teaching Criminal Justice Criminology or Juvenile Delinquency All volumes present the field accurately and completely to students and in a way that is understandable to undergraduates and therefore teachable All include rich collections of classic and contemporary articles all of which have been carefully edited so that students can master the material All volumes contain essays written by the Editors which provide the coherence and structure to the collections that undergraduate students need Questions for Discussion and Writing and well prepared indexes help to make these anthologies even more teachable All are edited by scholars who have the credentials and the undergraduate teaching experience to make this three volume set a particularly rich resource **Criminal Justice 2000: Policies, processes, and decisions of the criminal justice system**, 2000 Encyclopedia of Criminological Theory Francis T. Cullen, Pamela Wilcox, 2010-09-23 Consistently excellent The level and coverage of the content make this an invaluable reference for students studying criminology or taking criminal psychology modules at degree level and beyond Adam Tocock Reference Reviews In discussing a criminology topic lecturers and course textbooks often toss out names of theorists or make a sideways reference to a particular theory and move on as if assuming their student audience possesses the necessary background to appreciate and integrate the reference However university reference librarians can tell you this is often far from the case Students often approach them seeking a source to provide a quick overview of a particular theory or theorist with just the basics the who what where how and why if you will And reference librarians often find it difficult to guide these students to a quick one stop source In response SAGE Reference is publishing the two volume Encyclopedia of Criminological

Theory available in both print and electronic formats This serves as a reference source for anyone interested in the roots of contemporary criminological theory Drawing together a team of international scholars it examines the global landscape of all the key theories and the theorists behind them presenting them in the context needed to understand their strengths and weaknesses In addition to interpretations of long established theories it also offers essays on cutting edge research as one might find in a handbook And like an unabridged dictionary it provides concise to the point definitions of key concepts ideas schools and figures Coverage will include contexts and concepts in criminological theory the social construction of crime policy implications of theory diversity and intercultural contexts conflict theory rational choice theories conservative criminology feminist theory **SNi National Criminal Justice Reference Service (U.S.),1980 Criminological Theory J. Robert Lilly,Francis T. Cullen,Richard A. Ball,2011** Offering a rich introduction to how scholars analyze crime this Fifth Edition of the authors clear accessible text moves readers beyond often mistaken common sense knowledge of crime to a deeper understanding of the importance of theory in shaping crime control policies This thoroughly revised edition covers traditional and contemporary theory within a larger sociological and historical context and now includes new sources that assess the empirical status of the major theories as well as updated coverage of crime control policies and their connection to criminological theory **A Criminologist's Life** Cheryl Lero Jonson,Travis C. Pratt,2022-09-13 A Criminologist's Life Essays in Honor of the Criminological Legacy of Francis T Cullen honors the vast scholarly contributions of Francis T Frank Cullen as well as the immeasurable influence that he has had on the field for over 40 years With over 500 publications to his name and more than 67 000 citations to his work Frank Cullen has left an indelible mark on the fields of criminology and criminal justice Although best known for his work on rehabilitation and criminological theory Frank also has profusely published in and shaped the areas of white collar crime the use of meta analytic techniques to organize knowledge the sexual victimization of college women and public opinion on crime and punishment However Frank's legacy on the field is not limited to his scholarly contributions He has served as a mentor to countless students colleagues and others in the field helping support and guide the next generation of scholars Thus the current volume is organized to recognize both his scholarly work and mentoring as well as to provide an opportunity for Frank to reflect on his career in his own words The result is a collection of essays from Frank's former students colleagues and friends written to pay homage to the more than 40 years of work he has done to advance criminological knowledge and shape the field **Modernising Probation and Criminal Justice Philip Whitehead,2007** This book explores modernisation and cultural change within the U K Probation Service which is now part of the National Offender Management Service NOMS within the Ministry of Justice It addresses the tensions between practice based and political agendas between the probation ideal and managerialism It also reflects on modernisation cultural change and the probation ideal **Most-Cited Scholars in Criminology and Criminal Justice, 1986-2010** Ellen G Cohn,David P. Farrington,Amaia Iratzoqui,2013-09-20 This brief examines the influence and prestige of

scholars and works in the field of Criminology and Criminal Justice as well as changes in influence and prestige over a period of 25 years based on citation analysis. Methods of measuring scholarly influence can be highly controversial but the authors of this work clearly outline their methodology developed over years of experience working with this area of study. Through their expertise in Criminology and Criminal Justice they are able to solve problems that affect or confound many traditional forms of citation analysis such as irregularly cited references or self citations. It includes 25 years of data 1986 through 2010 on the most cited scholars and works in major American and international Criminology and Criminal Justice journals and provides an objective measure of influence and prestige. Through an analysis of the data the authors also document the intellectual development of criminology and criminal justice as a field of study since 1986. They highlight the development of research trends and indicate areas for future research. This book is designed for use by scholars and academics in the fields of Criminology and Criminal Justice and the methodology will be of interest to researchers in related disciplines including Sociology and Social Psychology. Cohn Farrington and Iratzouqui provide an invaluable service in unpacking the criminological enterprise. Using systematic citational analysis they illuminate the core patterns of scholarly influence that have shaped the field's development. This volume is an essential resource for all those wishing to understand which scholars and writings have done most within and across time periods to affect thinking about crime and justice. Francis T Cullen Distinguished Research Professor University of Cincinnati. Citation analyses have become one of the most significant measures of scholarly influence. They are especially useful for revealing major trends over time regarding authors and the topics of interest to the wider field. Cohn Farrington and Iratzouqui's *Most Cited Scholars in Criminology and Criminal Justice 1986-2010* provides the most up to date comprehensive and longitudinal investigation of scholarly influence in criminology criminal justice. This resource is a most interesting read one that supplies not a mere counting of citations but clear ideas about where the field has been centered and where it is trending into the future. Alex R Piquero Ashbel Smith Professor of Criminology University of Texas at Dallas.
