What's Bred in the Bone Grant Allen, 1891 **The Cultivator & Country Gentleman**, 1889 The farm the garden the fireside *Oppian's Halieutica* Emily Kneebone, 2020-10-08 Oppian's Halieutica is a dazzling five book Greek didactic poem about the sea and its wily chaotic inhabitants This book offers the first sustained reading of the poem as a didactic epic that meditates on the place of human beings within the cosmos at large and on the lessons we can learn from fish Using a combination of close reading and wider interpretative lenses this book examines the literary texture and cultural relevance of the Halieutica by analysing its sophisticated refraction of earlier literary critical theories and hexameter traditions its commentary on human animal relations and its contribution to imperial Greek literary political and cultural debates The book demonstrates the importance and cultural centrality of this understudied Greek didactic epic it is written for students and scholars of imperial Greek literature and culture including the ancient novel ancient heroic and didactic epics and those interested in human animal relations in the ancient world Murder and the Making of English CSI Ian Burney, Neil Pemberton, 2016-09-18 A history of the origins and development of forensic science in murder investigations in early twentieth century England Crime scene investigation or CSI has captured the modern imagination On television screens and in newspapers we follow the exploits of forensic officers wearing protective suits and working behind police tape to identify and secure physical evidence for laboratory analysis But where did this ensemble of investigative specialists and scientific techniques come from In *Murder and the Making of English CSI* Ian Burney and Neil Pemberton tell the engrossing history of how in the first half of the twentieth century novel routines regulations and techniques from chain of custody procedures to the analysis of hair blood and fiber fundamentally transformed the processing of murder scenes Focusing on two iconic English investigations the 1924 case of Emily Kaye who was beaten and dismembered by her lover at a lonely beachfront holiday cottage and the 1953 investigation into John Christie's serial murders in his dingy terraced home in London's West End Burney and Pemberton chart the emergence of the crime scene as a new space of forensic activity Drawing on fascinating source material ranging from how to investigator handbooks and detective novels to crime journalism police case reports and courtroom transcripts the book shows readers how over time the focus of murder inquiries shifted from a primarily medical and autopsy based interest in the victim's body to one dominated by laboratory technicians laboring over minute trace evidence *Murder and the Making of English CSI* reveals the compelling and untold story of how one of the most iconic features of our present day forensic landscape came into being It is a must read for forensic scientists historians and

true crime devotees alike Out of some pretty gruesome parts Burney and Pemberton have assembled a remarkably elegant account of the making of modern murder investigation Their analysis combines scholarly sophistication with a clarity of prose that entertains informs and surprises Murder and the Making of English CSI brims with insight about the historical path that led to our forensic present Mario Biagioli UC Davis School of Law author of Galileo's Instruments of Credit Telescopes Images Secrecy This nuanced and fascinating history of English crime scene reconstruction has an uncanny prescience for today's debates about how to manage crime scene evidence Simon A Cole University of California Irvine author of Suspect Identities A History of Fingerprinting and Criminal Identification
