Seke Teachers:

Media and Technology in 21st Century Higher and Tertiary Education in Africa Costain Tandi, 2023-09-30 This book interrogates media and technology in the 21st century higher and tertiary education in Africa Using Zimbabwe as its case study the book highlights the immense changes that the digital revolution has brought to higher institutions of learning in Africa including changes in teaching and learning Framed from an anti colonial perspective the book argues that digital change though critical in revolutionising education in Africa has come with a price as it has resulted in some epistemological erasures and injustices meted against the poor The book makes a critical contribution as it quests to correct the misdemeanours and injustices caused by digital gaps in African societies The authors argue that the future and success of digital technology in Africa lie in how well African countries will culturally and contextually sensor technology and attend to the problems caused by digital gaps The book provides a re invigorated overview and nuanced analyses of the role of media and technology in revolutionising 21st century higher and tertiary education in Africa It provides pointers and insights on how African countries can reformulate their education policy in a manner that is in sync with the level of digital technology of the time This is an important addition to critical debates on media and technology studies in education in Africa

Seek First, Teach Second Danielle Lee, Danielle Zee, 2025-09-02 Very few things are more frustrating in the world of education than attending professional development events run or written by individuals so far removed from the classroom that the practicality of what they re presenting is largely useless *Seek First Teach Second* is a five week devotional full of real life stories based on real classroom experience as well as motherhood showcasing how educators can put their faith into practice in a professional setting However more than sharing a collection of heartwarming and sometimes heartbreaking tales the overarching goal is to give teachers specifically those serving in a public school setting a resource to help validate the work of their calling reflect on their effectiveness from an eternal perspective encourage them to capitalize on the power of prayer and rightly prioritize their faith their family and the high demands of their profession Christian programs in public schools such as Fellowship of Christian Athletes and See You at the Pole solely focus on student leadership While it is often assumed and expected that the adult sponsors of said programs are believers where are they getting their Biblical leadership training If the Church does not encourage and equip the soldiers on the front lines of the battlefield of the classroom it s a missed opportunity to stand in the gap and intercede on behalf of these children
