Quantum Photonics:

Pioneering Advances and Emerging Applications Robert W. Boyd, Svetlana G. Lukishova, Victor N. Zadkov, 2019-02-19 This book brings together reviews by internationally renowned experts on quantum optics and photonics. It describes novel experiments at the limit of single photons and presents advances in this emerging research area. It also includes reprints and historical descriptions of some of the first pioneering experiments at a single photon level and nonlinear optics performed before the inception of lasers and modern light detectors often with the human eye serving as a single photon detector. The book comprises 19 chapters, 10 of which describe modern quantum photonics results including single photon sources, direct measurement of the photon's spatial wave function, nonlinear interactions, and nonclassical light, nanophotonics for room temperature single photon sources, time multiplexed methods for optical quantum information processing, the role of photon statistics in visual perception, light by light coherent control using metamaterials, nonlinear nanoplasmonics, nonlinear polarization optics, and ultrafast nonlinear optics in the mid-infrared.

Attention and Emotion Adrian Wells, Gerald Matthews, 2016-01-28 This text critically reviews the literature on attention and emotion and offers an integrative cognitive attentional model of the development and maintenance of emotional disorders. It highlights the similarities and differences between disorders and offers specific new treatment implications. The book contains numerous summary sections so that readers less familiar with the cognitive literature can follow the main issues without being overwhelmed. The central aims of this work are to review critically models of attention and their application to attentional processes in emotional disorders. To develop an integrative theoretical framework and model for conceptualizing attentional processes associated with the aetiology and maintenance of emotional stress reactions and to discuss the implications for clinical practice of attentional theories of emotional dysfunction.

Re-Visioning Psychiatry Laurence J. Kirmayer, Robert Lemelson, Constance A. Cummings, 2015-07-29 *Re-Visioning Psychiatry* brings together new perspectives on the causes and treatment of mental health problems. The contributors emphasize the importance of understanding experience and explore how the brain, the person, and the social world interact to give rise to mental health problems as well as resilience and recovery.
