Reinventing Territories through Solidarity Didier Chabaud, Philippe Eynaud, Nathalie Raulet-Croset, 2025-06-23 While territories have always faced multiple challenges the addition of ecological transition to economic cultural and social issues complicates matters considerably Transition calls for new perspectives The reinvention of territories through solidarity appears to be a particularly relevant approach as it allows us to draw on the many innovations brought about by players in the social and solidarity economy SSE To illustrate this point the book brings together case studies that bear witness to their astonishing ability to link the economy and local democracy to ensure the sustainability of their activities These case studies illustrate a renewed vision of territorial development based on cooperation between the SSE local authorities entrepreneurs and citizens Subsequently they usher in a new way of thinking about public action in which solidarity players undertake an important role in co constructing with local public players systems capable of meeting the major challenges of our time

**Experiencing Ruptures in Migration - The Ordinary and Unexpected Journeys of Global Migrants** Delphine Mercier, Víctor Zúñiga, Kamel Doraï, Mustapha El Miri, Michel Peraldi, 2021-12-16 This book aims to portray migratory experiences documented in the form of biographical narratives We are interested in the dynamic aspect of migration which effectively becomes a complex trajectory made up of stages returns and circulations and no longer simply as in the industrial era a bipolar exile there and here In these complex and dynamic movements many trajectories become bifurcations by which we mean shifting fates In these stories we found paths events and bifurcations all combined together in terms of biographical construction based on accumulated experiences These narratives are both very banal and very unusual journeys portraying a new international human globalization They are simultaneously stories of barriers to be crossed in chaotic situations interspersed with peaceful events in quiet contexts These journeys reveal not only the weight of migration policies but also the certification policies implemented and developed by various countries This book presents itineraries social logics of mobility the routes become the analysts If statistics record regularities the personal approach captures specificities that produce meaning and contribute to a reinterpretation of current forms of mobility The superb collection of ethnographies that the reader will find in the pages to follow provide yet further insight into the ways in which movement across state borders represents a creative accomplishment With cases selected from around the world the Middle East North Africa Latin America North America and Europe the chapter in this book demonstrate that migration is undertaken not only against states and their bureaucracies but in tension with and possibly in opposition to migrants closest associates precisely the people whom social capital theory paints as the font of the resources that make migration possible Roger Waldinger University of California Los Angeles USA Contents Foreword Roger Waldinger Introduction Víctor Zúñiga Kamel Dora Delphine Mercier and Michel Peraldi Part One Migrant Families and Their Re configuration Chinese Migrant Women Creating Meaningful Lives Despite Vulnerable Statuses Hélène Le Bail Conflict and Migration from Iraq Building a Life in Exile Amid the Twists and
