Planning and Control Using Oracle Primavera P6 Versions 8.1 to 15.1 Ppm Professional - Chinese Text Paul E Harris, 2015-09-25 A user guide written in Chinese and training manual written for Project Management Professionals who wish to learn how to plan and control projects in an established Primavera Enterprise environment with or without Resources and Roles This book is an update of the author s Primavera P6 Version 7 book and contains updated workshops new content and an Earned Value chapter It has been written so it may be used with any software industry version The book is packed with screen shots constructive tips and contains workshops with solutions at the end of each chapter for the reader to practice the skills taught It has been written so it may be used with either the Professional Project Management Client version or the Enterprise Project Portfolio Management Optional Client The book is aimed at People who wish learn the software but are unable to attend a training course and find the software reference manual hard going Project management companies who wish to run their own software training courses or provide their employees with an alternative text to the vendor supplied user manual Training organizations requiring a training manual to run their own training courses This book is a PMI Approved course and instructors PowerPoint slide shows are available to training organizations PMI REPs may apply to have this course licensed to them and award 21 PDUs to each attendee Primavera Systems Inc originally asked the author to write this book and this publication is ideal for people who would like to gain an understanding of how the software operates up to an intermediate level It covers only Primavera Versions 8 1 to 15 1 Professional Client and Optional Client It explains some of the differences

from SureTrak P3 Microsoft Project and Asta Powerproject to assist people converting from other products. The book is designed to teach planners and schedulers in any industry how to setup and use the software in a project environment. It explains in plain English and in a logical sequence the steps required to create and maintain an unresourced and resourced schedule. It tackles some of the more complex aspects of the software that the user manual does not address. It highlights the sources of information and the methods that should be employed to produce a realistic and useful project schedule. This book is written by an experienced scheduler who has used the software at the sharp end of projects and is not a techno manual. It draws on the author's practical experience in using the software in a wide variety of industries. It presents workable solutions to real day to day planning and scheduling problems and contains practical advice on how to set up the software and import data.

About the Author Paul Harris holds an Honours Degree in Civil Engineering obtained in the UK and is a Certified Cost Engineer through AACEI International, a PRINCE2 Registered Practitioner and a Managing Successful Programmes Registered Practitioner.
