Project-Based Learning Applied to the Language Classroom Juliana Franco Tavares/ Louise Emma Potter, 2018-03-05 In Project Based Learning Applied to the Language Classroom the authors propose a way to

develop PBL in the language classrooms taking into account all of the obstacles and specifics involved in teaching a foreign language. It is about teaching English as a second or foreign language using Project Based Learning (PBL). We approach this combination because many people seem to think about implementing PBL in their language classes and ask questions about how to do it but feel that there aren't enough materials based on this methodology. In fact, most researchers and writers we have come across discuss the applications of PBL in the students' mother tongue to subjects such as Math, History, Literature, Social Studies, and Science. However, there are few published works about the specifics of PBL in foreign language classes. Besides, it seems obvious to us that the main difficulty in developing projects in a second or foreign language lies exactly on the fact that communication may be hindered when students do not have enough knowledge in the target language.

10 Performance-Based STEM Projects for Grades K-1 Todd Stanley, 2021-09-03. *10 Performance Based STEM Projects for Grades K-1* provides 10 ready-made projects designed to help students achieve higher levels of thinking and develop 21st century skills while learning about science, technology, engineering, and math. Projects are aligned to national standards and feature crosscurricular connections allowing students to explore and be creative as well as gain an enduring understanding. Each project is linked to national STEM education goals and represents one of a variety of performance assessments including oral presentations, research papers, and exhibitions. Included for each project are a suggested calendar to allow teachers to easily plan a schedule, mini lessons that allow students to build capacity and gain an understanding of what they are doing as well as multiple rubrics that can be used to objectively assess the performance of students. The lessons are laid out in an easy-to-follow format that will allow teachers to implement the projects immediately.

Grades K-1 PowerPoint for Teachers Ellen Finkelstein, Pavel Samsonov, 2007-10-12. This was written for teachers who want to use PowerPoint in the classroom to enhance your presentations, teach your students how to use the application, and create interactive educational projects.

James Bellanca, 2011-11-01. Translate standards-based content into enriched learning projects that build 21st century skills. A valuable tool for teachers, this book uses an enriched learning projects model to develop student skills in communication, collaboration, critical thinking, creativity, and global and cross-cultural awareness. It highlights the tools that enhance projects and presents research-based instructional strategies that engage students.

Using Technology with Elementary Music Approaches Amy M. Burns, 2020. Do you find it challenging to integrate technology into your elementary music classroom?
