## **Prolegomena To The Quran:**

*Prolegomena to the Qur'an* Al-Sayyid Abu al-Qasim al-Musawi al-Khu'i, 1998-06-25 Ayatollah al Sayyid Abu al Qasim al Musawi al Khui 1899 1992 was one of the most respected and widely acclaimed authorities on Twelver Shi'ite Islam in this century. This book, which was first published in Arabic in 1974, presents al Khui's comprehensive introduction to the history of the Quran. In it, al Khui revisits many critical and controversial topics connected with the collection and ultimate canonization of the text that have received little attention in contemporary Muslim scholarship since the classical age. For instance, he tackles what is probably the single most controversial subject in Quranic studies: the question of possible alterations to the Quran as maintained by some succeeding generations of compilers of the Quran. Throughout the volume, al Khui stresses the importance of understanding the historical setting in which the Quran was revealed; he does this in order to apply its provisions appropriately in contemporary Muslim society with its ever-expanding legal and ethical requirements. In addition to expounding his own views, al Khui also has the polemical purpose of refuting Sunni beliefs and concepts concerning various matters related to the theories of alteration and abrogation in the Quran. His arguments illuminate some of the substantial yet little-understood and appreciated issues that have been truly at stake between the two principal segments of the Muslim community. Translator Abdulaziz A. Sachedina supplies a helpful introduction to al Khui's work, discussing the methodological problems involved with the study of such texts and placing it in the historical context of polemic literature in Islam.

**Al-bayan Fi Tafsir Al-qur'an [The Prolegomena to the Quran]** Ayatullah Sayyid Abul Qasim Al Khui, 2017-05-16 This book is one of the many Islamic publications distributed by Mustafa Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. Mustafa Organization is a registered Organization that operates and is sustained through collaborative efforts of volunteers in many countries around the world, and it welcomes your involvement and support. Its objectives are numerous, yet its main goal is to spread the truth about the Islamic faith in general and the Shi'a School of Thought in particular, due to the latter being misrepresented, misunderstood, and its tenets often assaulted by many ignorant folks. Muslims and non-Muslims Organization's purpose is to facilitate the dissemination of knowledge through a global medium: the Internet, to locations where such resources are not commonly or easily accessible or are resented, resisted, and fought.

**The Cambridge Companion to the Qur'ān** Jane Dammen McAuliffe, 2006-11-23 An introduction to the Qur'an, a text that has guided the lives of millions.

**Islam and Warfare** Onder Bakircioglu, 2014-10-30 The question of how Islamic law regulates the notions of just recourse to and just conduct in war has long been the topic of heated controversy and is often subject to oversimplification in scholarship and journalism. This book traces the rationale for aggression within the Islamic tradition and assesses the meaning and evolution of the contentious concept of jihad. The book reveals that there has never been a unified position on what Islamic warfare tangibly entails due to the complexity of relevant sources and discordant historical dynamics that have shaped the contours

of jihad Onder Bakircioglu advocates a dynamic reading of Islamic law and military tradition one which prioritises the demands of contemporary international relations and considers the meaning and application of jihad as contingent on the socio political forces of each historical epoch This book will be of great interest to scholars and students of international law Islamic law war and security studies and the law of armed conflict Prolegomena to the Qur'an Abū al-Qāsim ibn 'Alī Akbar Khū'ī,1998 His arguments illuminate some of the substantial yet little understood and appreciated issues that have been truly at stake between the two principal segments of the Muslim community The Qur'an: A Guidebook Roberto Tottoli,2023-02-20 The Qur'an A Guidebook is an updated English version of the work appeared in Italian Rome 2021 Leggere e studiare il Corano which deals with the contents of the Qur'an the style and formal features of the text the history and fixation of it and an outline of the reception in Islamic literature The aim of the work is to give a reader a description of what he/she can find in the Islamic holy text and the state of the critical debates on all the topics dealt with focusing mainly on the growing scholarly literature which appeared in the last 30 years As such the work is unique in combining the aim to give comprehensive information on the topic and at the same time reconstruct the critical debate in a balanced outline also emphasizing confessional approaches and the dynamics in the study of the Qur'an There is nothing similar in contemporary scholarship and the book is a handbook for students and scholars of Islam but also for readers in religious studies who need to know how the main questions related to the Islamic text have been discussed in recent scholarship Islam and International Criminal Law and Justice Tallyn Gray,2018-11-16 This book explores a broad range of issues on Islam and international criminal law and justice Ten authors shed detailed light on the relationship between Islam Islamic law and Islamic thought and international criminal law **The Qur'an** Oliver Leaman,2006-05-02 A RUSA 2007 Outstanding Reference Title The Qur'an is the source of inspiration for one of the world's major religions followed today by over a billion people It plays a central role in Islam and ever since it appeared fourteen hundred years ago has been the subject of intense debate Some of this has been carried out by Muslims and some by those hostile or indifferent to Islam producing a very wide range of views Authored by forty three international experts the objective of The Qur'an An Encyclopedia is to present this diversity of thought approach and school without priority in order to give a strong appreciation of the range of response that the text has provoked throughout its history and providing students and researchers with a powerful one volume resource covering all aspects of the text and its reception Islam and the Qur'an are much in the news today and there is a public debate going on in which things are said about the Qur'an without much knowledge or understanding of the book Every effort has been made to help the reader use the Encyclopedia as an investigative tool in Quranic studies The volume assumes no previous knowledge of the Qur'an Islam or Arabic Technical terms are explained in the text itself and the style of each entry is designed to be as self contained as possible Entries are cross referenced and many include a brief bibliography At the end of the work there is a substantial annotated bibliography providing a detailed guide to the most significant books
