Reading And Writing The Lakota Language On Cd:

Cosmology and Moral Community in the Lakota Sun Dance Fritz Detwiler, 2021-12-30 Drawing on Indigenous methodologies this book uses a close analysis of James R Walker's 1917 monograph on the Lakota Sun Dance to explore how the Sun Dance communal ritual complex the most important Lakota ceremony creates moral community providing insights into the cosmology and worldview of Lakota tradition The book uses Walker's primary source to conduct a reading of the Sun Dance in its nineteenth century context through the lenses of Lakota metaphysics cosmology ontology and ethics The author argues that the Sun Dance constitutes a cosmic ethical drama in which persons of all types human and nonhuman come together in reciprocal actions and relationships Drawing on contemporary animist theory and a perspectivist approach that uses Lakota worldview assumptions as the basis for analysis the book enables a richer understanding of the Sun Dance and its role in the Lakota moral world Offering a nuanced understanding that centers Lakota views of the sacred this book will be relevant to scholars of religion and animism and all those interested in Native American cultures and lifeways **Uncage**

Eden: A Spiritual Philosophy Book about Food, Music, and the Rewilding of Society DJ Rankin, 2018-11-20 Our planet is in peril Our species is in captivity We alone hold the key We have become disconnected from the love song of our living planet and as a result she has become severely out of balance as she spirals through her evolution It is not beyond our power to regain a harmonious relationship with our plentiful Mother Earth and as we reweave the web of symbiosis we were born with humanity may once again experience a life without limitation We are meant to be integral components of the wild not slaves of the systematic destruction of it and as the veil of our incarceration is lifted we will rise to the occasion of tearing down the walls that contain us This is the story of one water protector's path to understanding his struggle to find what it means to live in a good way and the incredible world that his adventure reveals along the journey From Rattlesnakes to frybread to space dust to space funk the music of the universe has a most compelling story to share and as we ride the wave of this fundamental vibration we become enlightened to the astounding complexity of creation We are the dreamers we are the creators we have the ability to manifest our own reality as we travel throughout this material existence and it is up to us to believe in the abundance of tomorrow We have become lost in a cloud of fear as we insist on imagining the worst possible outcomes for our children's future The powers that be are attempting to subdue our awakening but we are emerging from this nightmare and rediscovering the true nature of the spirit within Life is meant to be lived every moment is meant to be cherished and you are meant to be you The language of human supremacy has convinced us that we are powerless but we alone hold the key to unlocking the cages of our planet and as we shed this illusion of scarcity the magic of the garden will once again be free to bloom And we're gonna make the best late night snacks Also available in print form at lulu.com
