Aspects of Real Estate Theory and Practice in Zimbabwe Innocent Chirisa, Eric Juru, 2019-08-23 The subject of real estate is increasingly becoming important especially in the countries of the developing world States and governments realise that real estate is a corner stone of socio economic development Real estate development contributes immensely to the gross physical capital formation Its formation construction and ancillary sectors contribute to the employment infrastructure development and gross domestic product The main challenges about real estate is about where to develop it how to develop it how to manage and compute valuations about it Such are the issues discussed in this volume The book draws on Zimbabwe as a case study to demonstrate the critical aspects that define theory and real estate practice in various contexts national regional and international *Frontier Capital Markets and Investment Banking* Temitope W. Oshikoya, Kehinde

Durosinmi-Etti, 2019-05-28 This book discusses the role of capital markets and investment banking in Nigeria the largest frontier market economy in the world by both population size and gross domestic product Offering a systematic framework combining conceptual principles with real practice the book enables the reader to gain useful insight into how capital markets and investment banking work in the real world of a frontier market The book provides a synopsis of the economic attractiveness financial systems intermediation and capital markets as well as the regulatory framework within a frontier market It explores capital raising through equity and underwriting and private equity paying particular attention to putting capital to work on mergers and acquisitions project and infrastructure finance and real estate finance Furthermore it analyses asset management pension industry and securities trading in a frontier market The authors use detailed case studies from Nigeria to illustrate the operations of investment banking in frontier markets The cases tables and charts serve as useful illustrations of the topics under discussion With the authors combined experience of more than 50 years as economists finance and investment professionals and in executive leadership positions in the financial services industry this book will interest the academic community professionals in the financial industry retail and institutional investors interested in frontier markets development practitioners in international organizations and policy makers including securities and capital market regulators **The Encyclopedia of Housing, Second Edition** Andrew T. Carswell, 2012-05-31 Since

publication of the groundbreaking Encyclopedia of Housing in 1998 many issues have assumed special prominence within this field and indeed within the global economy For instance the global economic meltdown was spurred in large part by the worst subprime mortgage crisis we ve seen in our history On a more positive note the sustainability movement and green development has picked up considerable steam and given the priorities and initiatives of the current U S administration this will only grow in importance and increased attention has been given in recent years to the topic of indoor air quality Within the past decade as well the Baby Boom Generation began its march into retirement and senior citizenship which will have

increasingly broad implications for retirement communities and housing assisted living facilities aging in place livable communities universal design and the like Finally within the last twelve years an emerging generation of young scholars has been making significant contributions to the field For all these reasons and more we are pleased to present a significantly updated and expanded Second Edition of The Encyclopedia of Housing Real Estate Finance & Investments William B. Brueggeman, Jeffrey D. Fisher, 2008 The 13th edition continues to provide students with the tools they need to understand and analyse real estate markets and the investment alternatives available to both debt and equity investors
