Reading Games For Young Children:

The Well-Read Game Tracy Fullerton,Matthew Farber,2025-03-25 How players evoke personal and subjective meanings through a new theory of player response In *The Well Read Game* Tracy Fullerton and Matthew Farber explore the experiences we have when we play games not the outcomes of play or the aesthetics of formal game structures but the ephemeral and emotional experiences of being in play These are the private stories we tell ourselves as we play the questions we ask and our reactions to the game s intent These experiences are called readings because they involve so many of the aspects of engaging with literary cinematic and other expressive texts A game that is experienced in such a way can be called well read rather than or as well as well played because of the personal interpretive nature of that experience and the way in which it relates to our reading of texts of all kinds The concept of the well read game exists at the convergence of literary media and play theories specifically the works of Louise Rosenblatt s reader response theory Brian Upton s situational game theory Tracy Fullerton s playcentric design theory and Bernie DeKoven s well played game philosophy Each of these theories from their own perspective challenges notions of a separate objective or authorial meaning in a text and underscores the richness that arises from the varied responses of readers who coauthor the meaning of each text through their active engagement with it When taken together these theories point to a richer understanding of what a game is and how we might better value our experiences with games to become more thoughtful readers of their essential meanings *Teaching Young Children to Read* Adela R.
