Becoming Aotearoa Michael Belgrave, 2024-10-10 In the first major national history of Aotearoa New Zealand to be published for 20 years Professor Michael Belgrave advances the notion that New Zealand's two peoples tangata whenua and subsequent migrants have together built an open liberal society based on a series of social contracts. Frayed though they may sometimes be, these contracts have created a country that is distinct. This engaging new look at our history examines how

Imagining Britain's Economic Future, c.1800-1975 David Thackeray, Andrew Thompson, Richard Toye, 2018-04-04 Following the Brexit vote, this book offers a timely historical assessment of the different ways that Britain's economic future has been imagined and how British ideas have influenced global debates about market relationships over the past two centuries. The 2016 EU referendum hinged to a substantial degree on how competing visions of the UK should engage with foreign markets, which in turn were shaped by competing understandings of Britain's economic past. The book considers the following inter-related questions: What roles does economic imagination play in shaping people's behaviour and how far can insights from behavioural economics be applied to historical issues of market selection? How useful is the concept of the official mind for explaining the development of market relationships? What has been the relationship between expanding communications and the development of markets? How and why have certain regions or groupings, e.g. the Commonwealth, been unimagined, losing their status as promising markets for the future.

Teenagers Chris Brickell, 2017-07-24 *Teenagers* is a ground-breaking history of young people in New Zealand from the nineteenth century to the 1960s. Through the diaries and letters, photographs and drawings that teenagers left behind, we meet New Zealanders as they transition from children to adults: sealers and bushfellers, factory girls and newspaper boys, the male mashers of the 1880s and the female flappers of the 1910s and 20s, schoolgirls and rock n rollers, larrikins and louts. By taking us inside the lives of young New Zealanders, the book illuminates from a new angle large-scale changes in our society: the rise and fall of domestic service, the impact of compulsory education, the movement of Pakeha and then Maori from country to city, the rise of consumer culture and popular psychology. *Teenagers* shows us how young people made sense of their personal and social transformations in language and song and dress, at dances and picnics and social clubs, in talking and playing and reading. *Teenagers* provides an intimate and evocative insight into the lives of young people and the history of New Zealand.

Rediscovering the Law of Negligence Allan Beever, 2007-05-30 *Rediscovering the Law of Negligence* offers a systematic and theoretical exploration of the law of negligence Its aim is to re-establish the notion that thinking about the law ought to and can proceed on the basis of principle As such it is opposed to the prevalent modern view that the various aspects of the law are and must be based on individual policy decisions and that the task of the judge or commentator is to shape the law in terms of the relevant policies as she sees them The book then is an attempt to re-establish the law of negligence as a body of law rather than as a branch of politics The book argues that the law of negligence is best understood in terms of a relatively small set of principles enunciated in a small number of leading cases It further argues that these principles are themselves best seen in terms of an aspect of morality called corrective justice which when applied to the most important aspects of the law of negligence reveals that the law even as it now exists possesses a far greater degree of conceptual unity than is commonly thought Using this method the author is able to examine familiar aspects of the law of negligence such as the standard of care the duty of care remoteness misfeasance economic loss negligent misrepresentation the liability of public bodies wrongful conception nervous shock the defences of contributory negligence voluntary assumption of risk and illegality causation and issues concerning proof to show that when the principles are applied and the idea of corrective justice is properly understood then the law appears both systematic and conceptually satisfactory The upshot is a rediscovery of the law of negligence

A History of Christchurch Muslims Abdullah Drury, 2024-09-30 This book examines a significant part of New Zealand history through a critical analysis of the Muslim community in Christchurch a neglected but important aspect of wider New Zealand social and religious history Islam is one of the fastest growing religions in New Zealand and one of the least understood by the wider public However the historic reality demonstrates that the first Muslim settlers arrived within 15 years of the proclamation of the colony in 1841 and many have been living quietly in this country and contributing to society ever since Drury elucidates how New Zealand Muslims have proved it possible to integrate into a European society in the South Pacific whilst retaining an idiosyncratic sense of Islamic communal identity This book is a useful reference for scholars and educators curious to learn more about Muslims in New Zealand and about the Christchurch Mosque communities before the 2019 shootings
