The Soviet Union and Cold War Neutrality and Nonalignment in Europe Mark Kramer,Aryo Makko,Peter Ruggenthaler,2021-03-22 The Soviet Union and Cold War Neutrality and Nonalignment in Europe examines how the neutral European countries and the Soviet Union interacted after World War II Amid the Cold War division of Europe into Western and Eastern blocs several long time neutral countries abandoned neutrality and joined NATO Other countries remained

neutral but were still perceived as a threat to the Soviet Union's sphere of influence. Based on extensive archival research, this volume offers state-of-the-art essays about relations between Europe's neutral states and the Soviet Union during the Cold War and how these relations were perceived by other powers.

Neutral Europe and the Creation of the Nonproliferation Regime Pascal Lottaz, Yoko Iwama, 2023-11-03. Lottaz, Iwama, and their contributors investigate the role of neutral and nonaligned European states during the negotiations for the Treaty on the Nonproliferation of Nuclear Weapons (NPT). Focusing on the years from the Irish Resolution of 1958 until the treaty's opening for signatures ten years later, the nine chapters written by area experts highlight the processes and reasons for the political and diplomatic actions the neutrals took and how those impacted the multilateral treaty negotiations. The book reveals new aspects of the dynamics that led to this most consequential multilateral breakthrough of the Cold War. In part one, three chapters analyze the international system from a bird's-eye perspective, discussing neutrality, nonalignment, and the nuclear order. The second part features six detailed case studies on the politics and diplomacy of Ireland, Sweden, Finland, Switzerland, Austria, and Yugoslavia. Overall, this study suggests that despite the volatile and dangerous nature of the early Cold War, the balance of the strategic environment enabled actors that were not part of one or the other alliance system to play a role in the interlocking global politics that finally created the nuclear regime that defines international relations until today. A valuable resource for scholars of nonproliferation, the Cold War, neutrality, nonalignment, and area studies. Neutrality's Empire Per Högselius, David Nilsson, Hanna Vikström, 2025-10-01. Reconciling Sweden's reputation for political neutrality and scientific prestige alongside its involvement in extractivist colonial projects, this book exposes uncomfortable overlaps between these seemingly disparate ventures. In this illuminating reappraisal of the intersections between Swedish colonialism and its industrial history, *Neutrality's Empire* explores how Swedish actors, ranging from diplomats and business leaders to missionaries, geologists, and engineers, leveraged Sweden's global standing to access valuable mineral resources across Africa and Asia. In doing so, this book presents a historical narrative which clarifies Sweden's entanglement with the forces of globalization, colonialism, and climate change.

Migrants and Refugees from the 1960s until Today Wolfgang Mueller, Dirk Rupnow, 2022-10-10 One of the oldest phenomena in the history of mankind is migration whether peaceful or violent voluntary or forced barely noticeable outflow or mass movements In the 19th century regional migration to frontier territories as for example in the Russian Empire or the United States of America was a natural object of research In the 1960s there was renewed interest in migration history in Western Europe due to the increase of immigration With the collapse of the Soviet Union and the so called Eastern Bloc the history of borders came again into focus leading to a new generation in migration history This development was reinforced by the summer of migration of 2015 The history of migration to Austria especially during the Second Republic has long been a topic overlooked by historians but received increased attention since the 1980s The present volume presents research currently being done on the history of migration
