New Asian Marxisms Tani Barlow, 2002-04-09 The current place of Marxism in Asian and Asian Studies thinking
East-Asian Marxisms and Their Trajectories Joyce Liu, Viren Murthy, 2017-02-03 In this volume leading scholars from around the world suggest that radical ideologies have shaped complex historical processes in East Asia by examining how intellectuals and activists interpreted rethought and criticized Marxism in East Asia The contributors to this volume ask how we can use Marxism to understand East Asia in a global capitalist world and where the problems that Marxism highlighted including imperialism domination and inequality are increasingly prevalent The volume draws on various disciplines to reinterpret Marx and shed light on the complex dynamics of global capitalism in various historical national contexts The distinguished contributors illuminate rethink and make accessible highly complex Marxist concepts such as the question of class contradiction the temporalities of capitalism real and formal subsumption relative surplus value and the commodity form the question of class and the proletariat At a time when people around the world are struggling to cope with the crises of global capitalism this volume on regional responses to capitalism is especially welcome It will be of interest to students and scholars of East Asian studies social and political theory sociology and globalization studies **The Politics of Culture in the Shadow of Capital** Lisa Lowe, David Lloyd, 1997-11-17 Coming from a broad cross section of academic disciplines and theoretical positions this collection of essays questions and reworks Marxist critiques of capitalism that center on the West and which posit a uniform model of development More specifically Contemporary Chinese Marxism Chengbing Wang, 2023-08-22 This book provides a comprehensive and in depth survey of the foundational research orientations of contemporary Chinese Marxism The chapters in this book not only attach importance to the exploration of classic Marxist texts but also explore the challenges posed on classic Marxist texts by modernity and in doing so highlight the relationship between Marxism and the traditional Chinese culture As a school of thought Marxism has exerted tremendous influence on fields of humanities and social sciences over the course of its introduction dissemination and development Through this volume well established Chinese scholars from Mainland China also discuss contemporary Chinese Marxism in an interdisciplinary context Further this volume facilitates dialogues exchanges and collisions of ideas between researchers of contemporary Chinese Marxism on one side and the researchers of Western Marxism on the other This book will be a great resource for academics researchers and advanced students of Marxism philosophy and sociology The chapters in this book were originally published in the journal Educational Philosophy and Theory **Chinese Marxism** Adrian Chan, 2003-06-29 This groundbreaking study of Chinese Marxism examines the ideology and praxis of Marxism as it has developed in China from its earliest beginnings to current debates This is the first systematic full length analysis of the development and nature of Marxist ideology in China Adrian Chan challenges established scholarship in both the West and China which continues to be overshadowed by Cold War dogma and party orthodoxy respectively It has long been argued that Chinese Marxism was

merely an offshoot of Soviet thought blended with ill defined traditional Chinese ideas Using previously neglected Chinese sources including newspapers political journals and communist party documents Chan refutes this Showing how the first Chinese revolutionaries were directly influenced by the writings of Marx Chinese Marxism argues that Bolshevism was a secondary influence on Chinese communist thought Mao himself drew upon Marxian themes in the creation of party orthodoxy In doing so he signalled his differences from Lenin and Stalin on important issues of theory and practice However not all party leaders accepted this Marxian praxis This has led to continuous conflict between proponents of Maoist Marxism and Soviet type scientific Marxism Leninism Chinese Marxism presents detailed studies of the Great Leap Forward and the Cultural Revolution to illustrate the consequences of this ongoing ideological conflict and brings the story up to the present day with an analysis of the current Thermidorean Reaction and the controversial embracing of Confucianism *China's Rise: Challenges and Opportunities* , **How to Localize Marxism in China** Guo Jianning,2022-12-30 This book explores frontier issues concerning the localization of Marxism in China by examining historical processes cultural implications and contemporary perspectives on this process of indigenization Emerging in the 1840s in Germany Marxism has evolved from a German European and Western idea into a Chinese Asian and Eastern one This title seeks to answer the question of how Marxism has been adapted to the Chinese context and how it migrated the regions The first three chapters chart the history of the dissemination of Marxism to adapt to Chinese conditions across three periods revolutionary times before 1949 the period of socialist construction after 1949 and the reform and opening up since 1978 The subsequent two chapters analyze the experience of the development of socialism with Chinese characteristics featuring synergistic integration with traditional Chinese culture and the combining of the basic principles of Marxism and China's real life situation The final chapter advances suggestions on how to further promote the localization of Marxism and how to develop contemporary Chinese Marxism faced with new historical conditions The book will appeal to scholars students and general readers interested in contemporary Marxism Marxism in China and contemporary Chinese history politics and society **Marxism and the Chinese Experience** Arif Dirlik,Maurice Meisner,2016-09-16 These essays consider the implications for Chinese socialism of the repudiation of the Cultural Revolution and the legacy of Mao Zedong as well as the meaning of the new definition and direction Mao's successors have given socialism The themes have been selected for conceptual coherence within a socialist problematic of social change Representing anthropology art history economics history literature and politics various inquiries point in a twofold direction the meaning of socialism for China and the meaning of Chinese Socialism for socialism as a global phenomenon meaning not in some abstract sense but rather as it is constituted in the process of political ideological activity which articulates and defines social relationships within China as well as China's relationship to the world *Marxism in Asia* Colin Mackerras,Nick Knight,2015-04-17 Marxism is a theory which originated in the context of nineteenth century industrialised Europe Despite its European origins Marxism has actually found greatest significance as a doctrine for change

in the context of the underdeveloped peasant societies of Asia This paradox has only been resolved through adaptation of Marxism to suit the specific features of particular Asian societies There has consequently been a differentiation of Marxism along national lines In this book first published in 1985 the theoretical and practical implications for this national differentiation of a universal European theory are explored followed by a more detailed analysis of the manner in which Marxism has developed during different historical periods in particular Asian contexts

Marxist Philosophy in China : From Qu Qiubai to Mao Zedong, 1923-1945 Nick Knight, 2006-01-01 This book recounts the history of Marxist philosophy in China between 1923 and 1945 through the writings and activities of four philosophers Qu Qiubai Ai Siqi Li Da and Mao Zedong Two of these philosophers Qu and Mao were also political activists and leaders but their contribution to this history is as important if not more so than the contribution of Ai and Li who were predominantly philosophers and scholars The inclusion of Qu and Mao underlines the intimate connection between philosophy and politics in the revolutionary movement in China It is not possible to speak credibly of Marxist philosophy in China without considering the political context within which its introduction elaboration and dissemination proceeded Indeed each of the philosophers considered in this book repudiated the notion that the study of philosophy was a scholastic intellectual exercise devoid of political significance Each of these philosophers regarded himself as a revolutionary and considered philosophy to be useful precisely because it could facilitate a comprehension of the world and so accelerate efforts to change it By the same token each of these philosophers took philosophy seriously each bent his mind to the daunting task of mastering the arcane and labyrinthian philosophical system of dialectical materialism Philosophy might well be political they believed but this was no excuse for philosophical dilettantism
