New Directions In Social Impact Assessment New Directions In Social Impact Assessment:

New Directions in Social Impact Assessment Frank Vanclay, Ana Maria Esteves, 2011-01-01 This book should be read by anyone commissioning impact assessments who wants to build their understanding of the more progressive and innovative end of the topic. A job well done in the eyes of stakeholders and regulators requires proper social analysis. Jon Samuel Head of Social Performance, Anglo American. The list of authors reads like a who's who in SIA. Academics and practitioners are equally represented among the authors. The book provides a good mix of broad theoretical concepts and specific practical topics. Martin Haeefele, Manager, Environmental Impact Assessment at Mackenzie Valley Environmental Impact Review Board, Yellowknife, Northwest Territories, Canada. This book gives a very broad overview of where Social Impact Assessment is coming from, where it is now, and where it could go, from an impact assessment tool to an impact management tool. It provides a realistic insight into both the achievements and the struggles of Social Impact Assessment. A recommended read for both those interested in Social Impact Assessment and those in related domains where social issues are gaining increasing importance, such as Environmental Assessment and Sustainability Appraisal. Rob Verheem, Deputy Director, Netherlands Commission for Environmental Assessment. This important new book outlines current developments in thinking in the field of Social Impact Assessment (SIA). It advances the theory and practice of SIA and argues that a dramatic shift is required in the way socioeconomic studies and community participation is undertaken. The book emphasizes that much more than the act of predicting impacts in a regulatory context, SIA needs to be the process of managing the social aspects of development, and that there needs to be a holistic and integrated approach to impact assessment. It stresses that greater attention needs to be given to ensuring that the goals of development are attained and enhanced. This significant addition to the literature will be an invaluable reference for academics, consultants, and practitioners.

Evaluating Environmental and Social Impact Assessment in Developing Countries Salim Momtaz, Zobaidul Kabir, 2018-07-17 *Evaluating Environmental and Social Impact Assessment in Developing Countries* Second Edition outlines an evaluation framework that supports environmental professionals, researchers, and academics in evaluating the effectiveness of impact assessment within limited budgets. It promotes standardization across the field and helps determine if Environmental Impact Assessment (EIA) is achieving its intended goal of sustainable development. Using Bangladesh as a case study, the book discusses key processes, highlights the need for an integrated holistic approach, outlines the current institutional framework, and discusses environmental impact, social impact, community participation, and the implementation of mitigation measures. This new edition provides a fully updated picture of both recent changes and ongoing development in process, such as the growth in social wellbeing, community participation, and enhanced auditing. Finally, the challenges still facing EIA and SIA evaluation are addressed as robustly as possible. Outlines the latest updates on how EIA and SIA outcome assessment systems are being incorporated. Highlights the surge in growth of community participation in EIA and gives valuable insights into the methods and

techniques being used to successfully harness this phenomenon Provides updated case studies that demonstrate how the evaluation framework has been applied revealing the challenges changes failures and successes that have taken place on these projects since the first edition Handbook of Regulatory Impact Assessment Claire A. Sauer, 2018-11-08 Gender impact assessment has been both celebrated as a beacon of hope for the cause of gender equality and criticised as being ineffectual More than 20 years of gender mainstreaming have demonstrated that equality governance with and through impact assessment is an intersectional and still evolving process Arn T Sauer s study examines the instruments of gendered policy analysis and the conditions under which they are being used by the Canadian federal government and the European Commission Interviews with experts from public administration and instrument designers as well as document analyses reveal benefits and challenges and show that the success of equality governance depends upon

whether knowledge about gendered policy and appropriate administrative practices are embedded embodied and entrenched in public administration
