Performing The Sacred Theology And Theatre In Dialogue Engaging Culture:

Performing the Sacred (Engaging Culture) Todd E. Johnson, Dale Savidge, 2009-08-01 Christian theatre has rich roots from ancient Hebrew dramas to medieval plays but where does it fit in today's media saturated society Performing the Sacred is a fascinating dialogue between a theologian and theatre artist offering the first full scale exploration of theatre and theology The authors illuminate the importance of live performance in a virtual world of preserving the ancient art form of storytelling by becoming the story Theologically theatre reflects Christianity's central doctrines incarnation community and presence enhancing the human creative experience and simultaneously engaging viewers on multiple levels This Engaging Culture series title will be a key volume for those interested in theatre as well as drama practitioners worship leaders and culture makers

Christian Contours Douglas S. Huffman, 2012-01-12 What does it mean to think and live Christianly in a world of competing worldviews Christian Contours answers this question by inviting readers to consider the understanding of reality proposed by the Bible Though it is easy to divide life into separate compartments religious and secular theological and practical faith invites us to view all of life in the light of that Biblical understanding Presenting a clear compelling case for unity in essential Christian tenets the authors of Christian Contours guide the reader through developing internalizing and articulating a biblical worldview This robust worldview enables the Christian to be a critically thinking participant in culture and to be a faithful disciple of Christ with both heart and mind

What Job's Friends Could Have Done Stephen Torr, 2025-08-19 In a world that is becoming more aware of the impact of traumatic experiences on the lives of individuals the church is faced with the challenge of examining how to do life well together in a way that helps rather than hinders those who are living in the aftermath of trauma Beginning with the question of what Job's friends could have done differently to help Job in the midst of his suffering the present work draws on Kevin Vanhoozer's theodramatic model and the Object Relations Theory of British pediatrician and psychoanalyst Donald Winnicott to provide biblically rooted guidance for developing a trauma sensitive church In bringing these perspectives together exploration takes place into what it means to be made in the image of God in the theodrama and what the church's role is in enabling the christological form of this image to take shape in each individual particularly in the aftermath of individual trauma The work of Winnicott provides fresh insight into how this development might be facilitated by the church within the theodrama of salvation

The Problem with The Dot Bruce D. Long, 2021-03-02 The Problem with the Dot is rooted in the idea that culture is a garden to be tended Gen 2:15 rather than a war to be won and uses the analogy of an ecosystem to expand the details of the individual components of the theatrical ecosystem to 1 Help those with minimal exposure to theater understand the indivisible construct of the theatrical ecosystem 2 Identify areas of Christian neglect within each component and 3 Emphasize strategic corrections that will result in the holistic restoration of a healthy global culture Each chapter strengthens the case for a long term holistic approach to the care and cultivation of global culture through the theatrical ecosystem culminating in a call to action that is

magnified by the unique opportunity presented by the 2020 global pandemic that forced a hiatus on all theatrical productions The market will reset and artists will revive theaters It is my prayer that when this grand reopening occurs around the globe Christians are an integral part of the new beginning

Theatre and Christianity Elizabeth Schafer, 2019-03-16 This critical new title in the Theatre series explores the fluctuating relationship between theatre and Christianity by focusing on key points of intersection the challenge of realism and the real the treatment of women and the role of amateur performance It covers a wide range of examples from medieval times to today examining how theatre and Christianity have sometimes clashed dramatically and sometimes embraced one another to great effect Engaging and enlightening this book offers an insight into the complex dynamic between theatre and Christianity perfect for undergraduate and postgraduate students of theatre or religious studies

Incorporating Children in Worship Michelle A. Clifton-Soderstrom, David Bjorlin, 2014-06-18 Incorporating children in worship is a powerful and overlooked mark of God's kingdom This book argues that children's full participation in worship signifies not only a vibrant faithful communion but also offers a critical window into the Spirit's work of linking the church to Christ Children have a vocation in worship They embody the theological virtues in distinct ways that enrich the worship of the whole church Moreover incorporating children reflects the difference in unity that is God's triune life Receiving children in their difference moves the worshipping body toward the telos of worship glorification of God and sanctification of humanity and habituates the worshipping body to incorporate other often more threatening kinds of difference

Intercultural Discipleship (Encountering Mission) W. Jay Moon, 2017-12-05 This addition to an acclaimed series brings cutting edge research to bear on a topic of perennial interest making disciples The book looks at disciple making from multiple cultures to help readers discover contextual approaches that are culturally relevant and biblically faithful It emphasizes methods that are especially effective with contemporary converts and includes practical examples from around the world Each chapter includes sidebars discussion questions an activity for discipling and a case study An appendix contains further suggestions and exercises for instructors

Music for Others Nathan Myrick, 2021 Musical activity is one of the most ubiquitous and highly valued forms of social interaction in North America to say nothing of world over being engaged from sporting events to political rallies concerts to churches Moreover music's use as an affective agent for political and religious programs suggests that it has ethical significance Indeed many have said as much It is surprising then that music's ethical significance remains one of the most undertheorized aspects of both moral philosophy and music scholarship Music for Others Care Justice and Relational Ethics in Christian Music fills part of this scholarly gap by focusing on the religious aspects of musical activity particularly on the practices of Christian communities Based on ethnomusicological fieldwork at three Protestant churches and a group of seminary students studying in an immersion course at South by Southwest SXSW and synthesizing theories of discourse formation and care ethics oriented towards restorative justice it first argues that relationships are ontological for both human beings and musical activity It further argues that

musical meaning and emotion converge in human bodies such that music participates in personal and communal identity construction in affective ways yet these constructions are not always just Thus considering these aspects of music s ways of being in the world Music for Others finally argues that music is ethical when it preserves people in and restores people to just relationships with each other and thereby with God The Cambridge Companion to Quakerism Stephen W. Angell, Pink Dandelion, 2018-04-19 The Cambridge Companion to Quakerism offers a fresh up to date and accessible introduction to Quakerism Quakerism is founded on radical ideas and its history of constancy and change offers fascinating insights into the nature of non conformity In a series of eighteen essays written by an international team of scholars and commissioned especially for this volume the Companion covers the history of Quakerism from its origins to the present day Employing a range of methodologies it features sections on the history of Quaker faith and practice expressions of Quaker faith regional studies and emerging spiritualities It also examines all branches of Quakerism including evangelical liberal and conservative as well as non theist Quakerism and convergent Quaker thought This Companion will serve as an essential resource for all interested in Quaker thought and practice **Encyclopedia of Christianity in the United States** George Thomas Kurian, Mark A.
