Poucher's Perfumes, Cosmetics and Soaps — Volume 1 W.A. Poucher, 2012-12-06 This classic work by Poucher first published in 1923 was last produced in three volumes titled respectively The Raw Materials of Perfumery seventh edition 1974 The Production Manufacture and Application of Perfumes eighth edition 1974 and Modern Cosmetics eighth edition 1974 Its popularity is well demonstrated by there having been three reprints of these editions in 1976 1979 and 1984 respectively The history of events can be traced by reference to the prefaces to earlier editions and those interested should study these with care since they give a fascinating insight into developments in the subject fields covered by Poucher's Perfumes Cosmetics and Soaps over the years It is not proposed to provide a resume here In this Volume I the current edition attempts to provide data about raw materials in a more formalized way than before so that not only the history of some compounds can be checked but also so that useful reference information can be obtained It is particularly relevant to do this since it is not always easy to be certain of nomenclature Moreover as we move towards ingredient labelling a trend not welcomed by some a high level of uniformity will be needed Whether this will come from adoption of CTFA terminology use of CAS numbers or some other system is not clear Where possible such data have been included so that readers may identify materials more readily Where given CAS numbers are located in the top right hand corner of each entry Poucher's Perfumes, Cosmetics and Soaps W.A. Poucher, 2012-10-20 Cosmetic Science has developed greatly since the publication of the 8th edition of this textbook in 1974 Although the first part of this volume still consists of chapters about product preparations in alphabetical order each product category has been revised and updated by a specialist An outline of the biology structure and function of skin hair teeth and nails and the reasons for the need for cosmetics are given in those dealing with the relevant preparations Throughout the word Cosmetics includes toiletries and thus all products which protect cleanse adorn and perfume the human body and combat body odour and perspiration The f spelling for the element sulfur and its derivatives has been used following the recommendations of the International Union of Pure and Applied Chemistry IUPAC and the decision taken by the Royal Society of Chemistry RSC and the British Standards Institute BSI to use f instead of ph in all their publications This stems from the derivation of the use of the f from Latin and its use in England until the 15th century **Perfumes, Cosmetics and Soaps: The Production, Manufacture and Application of Perfumes:**

Volume 2 William A. Poucher, 2019-06-15 Perfumes cosmetics and soaps Volume 2 Being a treatise on the production manufacture and application of perfumes of all types Poucher's Perfumes, Cosmetics and Soaps W.A. Poucher, 2012-12-06 Cosmetic Science has developed greatly since the publication of the 8th edition of this textbook in 1974 Although the first part of this volume still consists of chapters about product preparations in alphabetical order each product category has been revised and updated by a specialist An outline of the biology structure and function of skin hair teeth and nails and the reasons for the need for cosmetics are given in those dealing with the relevant preparations Throughout the word Cosmetics

includes toiletries and thus all products which protect cleanse adorn and perfume the human body and combat body odour and perspiration The f spelling for the element sulfur and its derivatives has been used following the recommendations of the International Union of Pure and Applied Chemistry IUPAC and the decision taken by the Royal Society of Chemistry RSC and the British Standards Institute BSI to use f instead of ph in all their publications This stems from the derivation of the use of the f from Latin and its use in England until the 15th century *Perfumes, Cosmetics and Soaps* William Arthur Poucher,1941 *Poucher's Perfumes, Cosmetics, and Soaps* William Arthur Poucher,1993 Cosmetic Science has developed greatly since the publication of the 8th edition of this textbook in 1974 Although the first part of this volume still consists of chapters about product preparations in alphabetical order each product category has been revised and updated by a specialist An outline of the biology structure and function of skin hair teeth and nails and the reasons for the need for cosmetics are given in those dealing with the relevant preparations Throughout the word Cosmetics includes toiletries and thus all products which protect cleanse adorn and perfume the human body and combat body odour and perspiration The f spelling for the element sulfur and its derivatives has been used following the recommendations of the International Union of Pure and Applied Chemistry IUPAC and the decision taken by the Royal Society of Chemistry RSC and the British Standards Institute BSI to use f instead of ph in all their publications This stems from the derivation of the use of the f from Latin and its use in England until the 15th century **Poucher's Perfumes, Cosmetics and Soaps** H. Butler,2013-06-29 Poucher's *Perfumes Cosmetics and Soaps* has been in print since 1923 and is the classic reference work in the field of cosmetics Now in a fully updated 10th edition this new volume provides a firm basic knowledge in the science of cosmetics including toiletries as well as incorporating the latest trends in scientific applications and legislation which have occurred since the 9th edition This edition will not only be an excellent reference book for students entering the industry but also for those in specialized research companies universities and other associated institutions who will be able to gain an overall picture of the modern cosmetic science and industry The book has been logically ordered into four distinct parts The historical overview of Part 1 contains an essay demonstrating William Arthur Poucher's influence on the 20th Century cosmetics industry as well as a chapter detailing the long history of cosmetics Part 2 is a comprehensive listing of the properties and uses of common cosmetic types ranging from Antiperspirants through to Sunscreen preparations There are an increased number of raw materials in use today and their chemical physical and safety benefits are carefully discussed along with formulation examples The many additions since the last edition demonstrate the dramatic recent expansion in the industry and how changes in legal regulations affecting the development production and marketing of old established and new products are operative almost worldwide Information on specialist products for babies and others is included within individual chapters The chapters in Part 3 support and outline the current guidelines regarding the assessment and control of safety and stability This information is presented chemically physically and microbiologically Part 3 chapters also detail requirements for the

consumer acceptability of both existing and new products Those legal regulations now in force in the EU the USA and Japan are carefully described in a separate chapter and the remaining chapters have been extensively updated to explain the technical and practical operations needed to comply with regulations when marketing This information will be invaluable to European Union and North American companies when preparing legally required product information dossiers The final chapters in Part 4 contain useful information on the psychology of perfumery as well as detailing methods for the conduct of assessment trials of new products As ingredient labelling is now an almost universal legal requirement the International Nomenclature of Cosmetics Ingredients INCI for raw materials has been used wherever practicable The advertised volume is the 10th edition of what was previously known as volume 3 of Poucher's Cosmetics and Soaps Due to changes in the industry there are no plans to bring out new editions of volume 1 and 2

Perfumes, Cosmetics and Soaps W.A. Poucher, 1992-10-31

During the past decade there have been many changes in the perfumery industry which are not so much due to the discovery and application of new raw materials but rather to the astronomic increase in the cost of labour required to produce them This is reflected more particularly in the flower industry where the cost of collecting the blossoms delivered to the factories has gone up year after year so much so that most flowers with the possible exception of Mimosa have reached a cost price which has compelled the perfumer to either reduce his purchases of absolutes and concretes or alternatively to substitute them from a cheaper source or even to discontinue their use This development raises an important and almost insoluble problem for the perfumer who is faced with the necessity of trying to keep unchanged the bouquet of his fragrances and moreover to ensure no loss of strength and diffusiveness Of course this problem applies more especially to the adjustment of formulae for established perfumes because in every new creation the present high cost of raw materials receives imperative consideration before the formula is approved
