New American Blues A Journey Through Poverty To Democracy:

World Poverty Marie V. Lane, 2002 World Poverty A Bibliography With Indexes The Democracy Reader Sondra Myers, 2002 This book is an all in one introduction to both the theory and practice of democracy aimed at upper level high school and university students as well as civic minded adults in both old and new democracies Portions of the book are extracted from the Democracy is a Discussion handbooks

The Preferential Option for the Poor beyond Theology Daniel G. Groody, Gustavo A. Gutiérrez, 2016-10-15 Since the 1973 publication of Gustavo Gutiérrez's groundbreaking work A Theology of Liberation liberation theology's central premise of the preferential option for the poor has become one of the most important yet controversial theological themes of the twentieth century As the situation for many of the world's poor worsens it becomes ever more important to ensure that the option for the poor remains not only a vibrant theological concept but also a practical framework for living out the gift and challenge of Christian faith The Preferential Option for the Poor beyond Theology draws on a diverse group of contributors to explore how disciplines as varied as law economics politics the environment science liberal arts film and education can help us understand putting a commitment to the option for the poor into practice The central focus of the book revolves around the question How can one live a Christian life in a world of destitution The contributors address the theological concept of the option for the poor as well as the ways it can shape our social economic political educational and environmental approaches to poverty Their creative examples serve as an inspiration to all those who are seeking to put their talents at the service of human need and the building of a more just and humane world

The Humanities and the Civic Imagination James Frank Veninga, 1999 For those who believe that the humanities in America are in trouble suffering from over specialization and never ending intramural conflicts this collection of addresses and essays provides much needed hope Since the early 1970s state humanities councils working under a Congressional mandate have developed important models of how the study of history literature and culture can be infused into the public life of the nation Often countering trends that have dominated the humanities on campus state councils drawing upon the energies and resources of volunteer boards professional staff and public minded scholars have demonstrated through thousands of public programs documentary films conferences readings and discussions public issues forums interpretive exhibits oral histories lectures discussions and workshops that the humanities retain the capacity to help foster a communal vision that can revitalize the public life of the nation

Humanities, 2000

The Art of Freedom Earl Shorris, 2013-02-11 A conversation in a prison cell sparks an ambitious undertaking to attack the roots of long term poverty Seeking answers to the toughest questions about poverty in the United States Earl Shorris had looked everywhere At last one resounding answer came from a conversation with a woman in a maximum security prison the difference between rich and poor is the humanities Shorris took that idea and started a course at the Clemente Family Guidance Center in New York With a faculty of friends he began teaching the great works of literature and philosophy from Plato to Kant from Cervantes to

Garcia Marquez at the college level to dropouts immigrants and ex prisoners From that first class came two dentists a nurse two PhDs a fashion designer a drug counselor and other successes Over the course of seventeen years the course expanded to many U S cities and foreign countries Now Earl Shorris has written the stories of those who teach and those who study the humanities a tribute to the courage of people rising from unspeakable poverty to engage in dialogue with professors from great universities around the world This year in a high school on the South Side of Chicago a Clemente Course has begun that may change the character of public education in America and perhaps the world **Traveling Light** Kath

Weston,2009-09-01 How far can you get on two tacos one Dr Pepper and a little bit of conversation What happens when you re broke and you need to get to a new job an ailing parent a powwow college or a funeral on the other side of the country And after decades of globalization what kind of America will you glimpse through the window on your way For five years Kath Weston rode the bus to find out *Traveling Light* is not just another book about people stuck in poverty Rather it s a book about how people move through poverty and their insights into the sweeping economic changes that affect us all The result is a moving meditation on living poor in the world s wealthiest nation The Dream of a Democratic Culture T.

Lacy,2013-11-26 This book presents a moderately revisionist history of the great books idea anchored in the following movements and struggles fighting anti intellectualism advocating for the liberal arts distributing cultural capital and promoting a public philosophy anchored in mid century liberalism that fostered a shared civic culture *Political Dissent in Democratic Athens* Josiah Ober,2011-11-28 How and why did the Western tradition of political theorizing arise in Athens during the late fifth and fourth centuries B C By interweaving intellectual history with political philosophy and literary analysis Josiah Ober argues that the tradition originated in a high stakes debate about democracy Since elite Greek intellectuals tended to assume that ordinary men were incapable of ruling themselves the longevity and resilience of Athenian popular rule presented a problem how to explain the apparent success of a regime irrationally based on the inherent wisdom and practical efficacy of decisions made by non elite citizens The problem became acute after two oligarchic coups d tat in the late fifth century B C The generosity and statesmanship that democrats showed after regaining political power contrasted starkly with the oligarchs violence and corruption Since it was no longer self evident that better men meant better government critics of democracy sought new arguments to explain the relationship among politics ethics and morality Ober offers fresh readings of the political works of Thucydides Plato and Aristotle among others by placing them in the context of a competitive community of dissident writers These thinkers struggled against both democratic ideology and intellectual rivals to articulate the best and most influential criticism of popular rule The competitive Athenian environment stimulated a century of brilliant literary and conceptual innovation Through Ober s re creation of an ancient intellectual milieu early Western political thought emerges not just as a footnote to Plato but as a dissident commentary on the first Western democracy Transformative Civic Education in Democratic Societies Tetyana Hoggan-Kloubert,Paul E Mabrey

III, Chad Hoggan, 2023-08-01 Democracy is neither inevitable nor guaranteed to last To survive democracy needs people adequately prepared to enact it Such preparation for effective citizenship in a complex and plural world requires an adult civic education one that goes beyond simple knowledge acquisition It requires a transformative education to help learners become agents and co shapers of their worlds This book offers examples of the roles that civic education has played and can play in different communities In this collection scholars from around the world report and reflect on civic adult education examining approaches paradigms and concepts that help us to act in culturally ethnically linguistically and religiously diverse societies
