New Architecture An International Atlas:

New Architecture Francisco Asensio, 2007-05-01 In *New Architecture* author Francisco Asensio presents a survey of the most significant work by leading architects from around the world since the turn of the 21st century. Included here are the most remarkable examples of public and private architecture of our time including houses, bridges, cultural centers, and parks and skyscrapers. In his authoritative text, the author examines the design concept of each structure as well as the building's relationship to climate and culture. *New Architecture* is lavishly illustrated with photographs of exteriors and interiors as well as floor plans and concept drawings. More than a mere survey, *New Architecture* is a comprehensive guide to the interaction between modern architecture and its surroundings. *New Architecture - an International Atlas*, 2007 **American**

Architects and Texts Juan Pablo Bonta, 1996 In this volume, the author analyzes 400 architectural books and articles published over the past 150 years to reveal changing societal preferences in architecture and to measure the reputations of individual architects. The text includes a ranked list of the 100 most famous architects. Abundance Not Capital Angelika Fitz, Elke Krasny, Architekturzentrum Wien, 2025-09-23 What if architecture were not an instrument of capital? How to imagine and build a non-extractivist and non-exploitative architecture? Capital's voracious appetite forces architecture into a regime of never enough. The current realities of building involve extraction and exploitation which in turn cause climate breakdown, environmental ruin, alienated labor conditions, and the destruction of local construction knowledge. But what if we could do architecture differently? What does non-extractivist architecture look like? In this book, Angelika Fitz and Elke Krasny introduce the concept of abundance to call for a paradigm shift in architecture. Using as its example the exceptional work of architect Anupama Kundoo, this book shows that non-extractivist and non-exploitative architecture is undeniably possible. Kundoo, born in Pune, India, weaves together innovative technological experimentation and traditional crafts. With careful consideration of local resources, building skills, climate, and environment, she makes buildings that embody spatial beauty and graceful materiality. *Abundance Not Capital* is a manifesto for creating a future forward alternative architecture. Contributors: Shumi Bose, Jordan Carver, Peggy Deamer, Madhavi Desai, Angelika Fitz, Rupali Gupte, Ranjit Hoskote, Elke Krasny, Charlotte Malterre, Barthes, Shannon Mattern, and Laurie Parsons. Copublished with Architekturzentrum Wien.
