Report of the Tests of Metals and Other Materials United States. Army. Ordnance Department, 1881 **Test Talk**
Glennon Doyle Melton, Amy H. Greene, 2023-10-10. Under No Child Left Behind, nearly every teacher faces a high stakes balancing act: managing the often incompatible responsibilities of teaching students meaningfully or preparing them for standardized tests. Through their experiences teaching at a school that struggled to meet state test standards driven by NCLB, authors Amy Greene and Glennon Melton discovered a way to raise scores without compromising their strong beliefs about good teaching and learning. Their concise and easy-to-use book, *Test Talk: Integrating Test Preparation Into Reading Workshop*, includes lesson plans and practice passages as well as sample questions and suggested language to use during lessons. This compelling book shows that teachers don't have to choose between best practice teaching and test preparation; effective test-taking strategies can be integrated into authentic reading instruction. The authors demonstrate how to improve performance on tests without resorting to teaching to the test, mnemonic devices or other gimmicks. Instead, they focus on encouraging student readers to explore tests as a specific genre containing unique language format and cues. Throughout the book, classroom vignettes show how seamlessly one can weave the test genre into reading workshop and connect those specialized skills to more general reading strategies. It is an invaluable resource for any teacher who struggles with how to prepare kids for tests without sacrificing real teaching and learning.
