New Ears For New Music:

The Soundscape of Modernity Emily Thompson, 2004-09-17 A vibrant history of acoustical technology and aural culture in early twentieth century America In this history of aural culture in early twentieth century America Emily Thompson charts dramatic transformations in what people heard and how they listened What they heard was a new kind of sound that was the product of modern technology They listened as newly critical consumers of aural commodities By examining the technologies that produced this sound as well as the culture that enthusiastically consumed it Thompson recovers a lost dimension of the Machine Age and deepens our understanding of the experience of change that characterized the era Reverberation equations sound meters microphones and acoustical tiles were deployed in places as varied as Boston's Symphony Hall New York's office skyscrapers and the soundstages of Hollywood The control provided by these technologies however was applied in ways that denied the particularity of place and the diverse spaces of modern America began to sound alike as a universal new sound predominated Although this sound clear direct efficient and nonreverberant had little to say about the physical spaces in which it was produced it speaks volumes about the culture that created it By listening to it Thompson constructs a compelling new account of the experience of modernity in America

Agencies in Feminist Translator Studies Elena Castellano-Ortolà, 2024-04-16 This book sets out a new framework for a feminist history of translators drawing on the legacy of Canadian scholar Barbara Godard and her work in establishing the Canadian literary landscape as a means of exploring agency in feminist translation studies and its implications for cross disciplinary debates The volume is organised in three sections establishing feminist translator studies as its own approach examining these dynamics at work in a comprehensive portrait of Barbara Godard's scholarly and literary history and looking ahead to future directions In situating the discussion on Godard and Canadian literary history Elena Castellano calls attention to a geographic context in which translation and its practice has been at the heart of debates around national identity and intersected with the rise of feminism and feminist literary scholarship The book demonstrates how an in depth exploration of the agency of an individual stakeholder whose activities spanned diverse communities and oft conflicting interests can engage in key questions at the intersection of nation making translation and feminism paving the way for future research and the further development of feminist translator studies as methodological framework This book will be of interest to scholars in translation studies feminist literature cultural history and Canadian literature

Historical Performance and New Music Rebecca Cypess, Estelí Gomez, Rachael Lansang, 2023-11-30 The worlds of new music and historically informed performance might seem quite distant from one another Yet upon closer consideration clear points of convergence emerge Not only do many contemporary performers move easily between these two worlds but they often do so using a shared ethos of flexibility improvisation curiosity and collaboration collaboration with composers past and present with other performers and with audiences Bringing together expert scholars and performers considering a wide range of issues and case studies *Historical Performance and New Music*

Belgiojoso, 2016-05-23 While we are used to looking around us we are less used to listening to what happens around us And yet the noises we produce reveal our way of life and learning to master them is a necessity This book aims at drawing the reader s attention to the sound of the urban environment The topic is by its very nature complex as it involves sounds and noises urban space and social activities Using an interdisciplinary approach it examines a heterogeneous selection of experimentations from the domains of music art and architecture Significant case studies of pieces of music public art works and scientific research in the field of urban planning are analyzed investigating the methods that have been adopted and the aural processes that have been generated It then uses the findings to reconstruct the underlying theories and practices and to show what might be drawn from these procedures applied to urban planning The overall objective is to learn to build and enrich space with sound arguing that there is a need to reconsider architecture and urban planning beyond building and to look to the world of the arts and other disciplines In doing so the book guides the reader toward a sensorial architecture and more generally toward consciously creating environmental architecture which is sustainable and connects with art and which diffuses a culture of sound **Acrobatic Modernism from the Avant-Garde to Prehistory** Jed Rasula, 2020-02-27 This is

a book about artistic modernism contending with the historical transfigurations of modernity As a conscientious engagement with modernity s restructuring of the lifeworld the modernist avant garde raised the stakes of this engagement to programmatic explicitness But even beyond the vanguard the global phenomenon of jazz combined somatic assault with sensory tutelage Jazz like the new technologies of modernity re calibrated sensory ratios The criterion of the new as self making also extended to names pseudonyms and heteronyms The protocols of modernism solicited a pragmatic arousal of bodily sensation as artistic resource validating an acrobatic sensibility ranging from slapstick and laughter to the pathos of bereavement Expressivity trumped representation The artwork was a diagram of perception not a mimetic rendering For artists the historical pressures of altered perception provoked new models and Ezra Pound s slogan Make It New became the generic rallying cry of renovation The paradigmatic stance of the avant garde was established by Futurism but the discovery of prehistoric art added another provocation to artists Paleolithic caves validated the spirit of all over composition unframed and dynamic Geometric abstraction Constructivism and Purism and Surrealism were all in quest of a new mythology Making it new yielded a new pathos in the sensation of radical discrepancy between futurist striving and remotest antiquity The

Paleolithic cave and the USSR emitted comparable siren calls on behalf of the remote past and the desired future As such the present was suffused with the pathos of being neither but subject to both Leo Ornstein Michael Broyles, Denise Von Glahn, 2007-10-15 Leo Ornstein Modernist Dilemmas Personal Choices traces the meteoric rise and heretofore inexplicable disappearance of the Russian American futurist anarchist pianist composer from his arrival in the United States in 1906 through a career that lasted nearly a century Outliving his admirers and critics by decades Leo Ornstein passed away in 2002 at the age of 108 Frequently compared to Igor Stravinsky and Arnold Schoenberg for a time Ornstein enjoyed a kind a celebrity granted few living musicians And then he turned his back on it all This first full length biographical study draws upon interviews journals and letters from a wide circle of Ornstein s friends and acquaintances to track the Ornstein family as it escaped the horrors of the Russian pogroms and it situates the Russian Jewish American musician as he carved out an identity amidst World War I the flu pandemic and the Red Scare While telling Leo Ornstein s story the book also illuminates the stories of thousands of immigrants with similar harrowing experiences It also explores the immeasurable impact of his unexpected marriage in 1918 to Pauline Mallet Prevost a Park Avenue debutante Leo Ornstein Modernist Dilemmas Personal Choices finds Ornstein at the center of several networks that included artists John Marin William Zorach Leon Kroll writers and activists Paul Rosenfeld Waldo Frank Edmund Wilson and Clair Reis the Stieglitz Circle and a group of English composers known as the Frankfurt Five Ornstein s story challenges directly the traditional chronology and narrative regarding musical modernism in America and its close relation to the other arts
