New Found Lands Maps In The History Of Exploration:

New Found Lands Peter Whitfield, 2015-12-22 First Published in 1998 An exploration narrative can be a tale of adventure and endurance a technical account of navigation and seamanship or a political history of the overseas empires that were built up in the wake of the explorers In New Found Lands Peter Whitfield takes a different approach By focusing on the maps that the explorers themselves used Whitfield reveals how the both the explorers and their patrons understood their expanding world and their place in it what they were seeking and how they thought they could achieve it and how they integrated new knowledge into their evolving world view The maps in New Found Lands present the geographical ideas of the time making plain the power that came with increasing technical and geographical knowledge They also serve as evocative and poignant reminders of the limited knowledge of these explorers For up until very recent times as these maps show there have been areas of the world remaining to be explored and new found lands to discover This lavishly illustrated book progresses chronologically starting with the explorers of the ancient world covering the East the New World the Pacific Australia and the Modern Era It will enrich our understanding of the voyages of discovery undertaken over the past 2000 years and will delight any map or history lover Also includes 150 color and black and white maps **New Found Lands** Peter

Whitfield, 1998 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company *East Asian Cartographic Print Culture* Alexander Akin, 2025-10-01 Alexander Akin examines how the expansion of publishing in the late Ming dynasty prompted changes in the nature and circulation of cartographic materials in East Asia Focusing on mass produced printed maps *East Asian Cartographic Print Culture The Late Ming Publishing Boom and its Trans Regional Connections* investigates a series of pathbreaking late sixteenth and early seventeenth century works in genres including geographical education military affairs and history analysing how maps achieved unprecedented penetration among published materials even in the absence of major theoretical or technological changes like those that transformed contemporary European cartography By examining contemporaneous developments in neighboring Choson Korea and Japan this book demonstrates the crucial importance of considering the East Asian sphere in this period as a network of communication and publication rather than as discrete national units with separate cartographic histories It also reexamines the Jesuit printing of maps on Ming soil within the broader context of the local cartographic publishing boom and its trans regional repercussions **British Narratives of Exploration** Frédéric Regard, 2015-10-06 Features a collection of essays that focus on British travel narratives from the seventeenth through to the nineteenth centuries This work investigates how the early explorers sense of self was destabilised by encounters with the Other

Geopolitics John

Agnew, 2004-03-01 Geopolitics identifies and scrutinizes the central features of geopolitics from the sixteenth century to the present The book focuses on five key concepts of the modern geopolitical imagination Visualising the world as a whole The definition of geographical areas as advanced or primitive The notion of the state being the highest form of political organization The pursuit of primacy by competing states The necessity for hierarchy

Mappings Denis

Cosgrove, 1999-04-01 Mappings explores what mapping has meant in the past and how its meanings have altered How have maps and mapping served to order and represent physical social and imaginative worlds How has the practice of mapping shaped modern seeing and knowing In what ways do contemporary changes in our experience of the world alter the meanings and practice of mapping and vice versa In their diverse expressions maps and the representational processes of mapping have constructed the spaces of modernity since the early Renaissance The map's spatial fixity its capacity to frame control and communicate knowledge through combining image and text and cartography's increasing claims to scientific authority make mapping at once an instrument and a metaphor for rational understanding of the world Among the topics the
