machines or artificial intelligence Spearheaded by the Cybernetics Group the project resulted in both the development of the modern computer and MK Ultra the CIA's mind control program MK Ultra promoted the mind expanding potential of psychedelic drugs to shape the counterculture of the 1960s based on the notion that the shamans of ancient times used psychoactive substances equated with the apple of the Tree of Knowledge And as revealed in the movie Lucy through the use of smart drugs and what transhumanists call mind uploading man will be able to merge with the Internet which is envisioned as the end point of Kabbalistic evolution the formation of a collective consciousness or Global Brain That awaited moment is what Ray Kurzweil a director of engineering at Google refers to as The Singularity By accumulating the total of human knowledge and providing access to every aspect of human activity the Internet will supposedly achieve omniscience becoming the God of occultism or the Masonic All Seeing Eye of the reverse side of the American dollar bill

The History of the Occult Tarot Ronald Decker, Michael Dummett, 2013-07-18 An essential volume for the libraries of all serious students of the Tarot When the Tarot was invented in Italy during the early fifteenth century it was simply a pack of cards used for playing games Esoteric interpretations of the pack date from late eighteenth century France and were confined to that country for a hundred years But today the cards are used throughout the world and not only for fortune telling for true believers they are the key to secret knowledge and the meaning of life A History of the Occult Tarot is the classic work on the history of the Tarot deck and its use in occult circles Starting with the late nineteenth century the Decker and Dummett examine how the Tarot became the favoured divination tool of occultists a bridge to the spirit world and a map of the unconscious From Theosophical to Aleister Crowley to the Order of the Golden Dawn and P D Ouspensky this compelling survey of the Tarot's history describes the many fascinating decks imagined over time as well as the secret histories of mystics

Initiation in the Aeon of the Child J. Daniel Gunther, 2014-02-15 This book's primary focus is an understanding of the change to the formulas of Initiation brought about by the advent of the New Aeon the Aeon of the Child in 1904 It draws deeply from Jungian psychology world mythology and religion the teachings of Aleister Crowley and the doctrines of the Mystery traditions It explains how the revelations unique to this stage of human evolution impact the work of the individual aspirant Much of what is written here is revealed for the first time with every attempt to do so in clear and precise language

The Way of Deep Magick Ian Rees, 2024-11-26 An exploration of the art of magic and qabalistic psychology as practiced by Aleister Crowley through the lens of the authors W E Butler and Tom Oloman Aleister Crowley is one of the best known figures in Western Occultism but books about him tend to focus on his life and personality either idealising or demonising him In this groundbreaking book established author of the occult Ian Rees focuses instead on Crowley's practice of magick tracing its roots back to ancient Egypt and considering his radical simplification of the Qabalah called the Naples Arrangement Rees also explores the ways in which Crowley brought teaching from Buddhism Taoism and Advaita Vedanta into western practice Particular attention is given to Crowley's novel Moonchild which is at its core a guide

to the practice of deep magick and introduces readers to the figure of Simon Iff who is Crowley's image of the Master Magickian. The Way of Deep Magick explores Crowley's inspirational works The Book of the Law and The Holy Books unearthing the magical formulae found within them. It also looks at Crowley's central practice of the Mass of the Holy Ghost. These works are linked to the traditions of the Divine Name and the ancient tradition of the Tree and the Fountain, the Moon and the Mountain. Central to the book is the communion with the mysterious presence of the Holy Guardian Angel which leads us through the reactive and restrictive patterns of the past, establishes us in pure presence and enables us to bridge between dualistic existence and the experience of non-dual states of consciousness which unite Love, Will and the simple and direct experience of Being. The book concludes by considering the mystery of embodying the generative star of will and uniting with and being upheld by the serpent of deep imagination or in other words becoming the Servant of the Star and Snake.
