material Donna Taylor University of Arkansas at Monticello Hutchinson offers a unique text by presenting a melding of theory with practice Utilizing case examples to highlight this intersection of theory research and life experiences this book truly addresses human behavior in the social environment Carla Mueller Lindenwood University **Modern Couples Sharing Money, Sharing Life** Janet Stocks, Björn Halleröd, 2007-07-12 This collection is the result of a five year long collaboration of sociologists in Sweden Spain and the United States In depth extended interviews with couples explore their daily lives and provide insights into the impact of modernity gender roles and expectations of the meaning of money and the complex financial reality of households **Ethnographic Inquiry and Lived Experience** Wing-Chung Ho, 2019-01-15 Ho addresses two fundamental theoretical questions about how best to practice ethnographic inquiries to obtain qualitative experience near and shareable accounts of human living The first question is regarding the epistemology of ethnography Ho posits that writing is epistemologically prior to the researcher s fieldwork experience in the production of ethnographic knowledge This stance is developed using the theories of hermeneutics put forward by Paul Ricoeur and Hans Georg Gadamer who both consider that once a text is produced its meaning is dissociated from the intention of the author The second question is what is the putative object that the ethnographer writes about Ho argues that lived experience Erlebnis offers such an ethnographic object Since the lived experience that an ethnographer experiences during fieldwork cannot be studied directly further theorizations of lived experience are necessary Ho underscores both the non discursivity and transcendence of lived experience in the lifeworld and the way power is clandestinely imbued in everyday life in shaping subjectivity and practice This theorization brings together Alfred Schutz s lifeworld theory and Michel Foucault s power knowledge nexus The result is a general theory of experience that is pertinent for ethnographic inquiries By addressing these two fundamental questions and offering novel angles from which to answer them this book offers refreshed epistemological guidelines for conducting ethnographic research for scientific reasoning More importantly this book also provides a crucial knowledge base for comprehending the current epistemological debates inherent in the production of ethnographic knowledge and furthering discussions in the field *The Blackwell Companion to Social Work* Martin Davies, 2013-04-01 Fully revised and restructured this fresh edition offers students and trainee social workers an incisive and authoritative introduction to the subject As well as entirely new sections on theory and practice the expert contributions which have shaped the companion s leading reputation have been updated and now include innovative standalone essays on social work theory Comprehensively reworked new edition comprising six substantive sections covering essential topics for trainee social workers in effect six books in one Includes an extensive introduction and chapters by leading experts on the focus and purpose of social work Provides a unified textbook for trainees and an invaluable professional reference volume Features a wealth of new material on theory and practice alongside detailed expositions of the social and psychological framework stages in the human life cycle and the objectives and core components of social work Each chapter lists five key points to

human behavior books that run into unavoidable stereotypes of human behavior and leave out necessary details about the

Ontario approached she became aware of the culture of the cottage While friends and family talked of nothing but languid
afternoons on the dock and bartered for as many lakeside days as possible Harrison marveled at the less attractive
components of cottage life the clogged highways en route and the unrelenting investment of money and labour that the
idyllic escapes demanded Curious about the rich and passionate meaning these places seemed to hold Harrison studied
cottagers in the Haliburton region over the course of seven years Thoughtfully and engagingly written A Timeless Place
