Penumbra Unbound The Penumbra Unbound The:

The Penumbra Unbound Brook Ziporyn, 2012-02-01 The Penumbra Unbound is the first English language book length study of the Neo Taoist thinker Guo Xiang d 312 C E commentator on the classic Taoist text the Zhuangzi The author explores Guo s philosophy of freedom and spontaneity explains its coherence and importance and shows its influence on later Chinese philosophy particularly Chan Buddhism The implications of his thought on freedom versus determinism are also considered in comparison to several positions advanced in the history of Western philosophy notably those of Spinoza Kant Schopenhauer Fichte and Hegel Guo s thought reinterprets the classical pronouncements about the Tao so that it in no way signifies any kind of metaphysical absolute underlying appearances but rather means literally nothing This absence of anything beyond appearances is the first premise in Guo s development of a theory of radical freedom one in which all phenomenal things are self so creating and transforming themselves without depending on any justification beyond their own temporary being

Zhuangzi and the Becoming of Nothingness David Chai, 2019-01-01 Explores the cosmological and metaphysical thought in the Zhuangzi from the perspective of nothingness Zhuangzi and the Becoming of Nothingness offers a radical rereading of the Daoist classic Zhuangzi by bringing to light the role of nothingness in grounding the cosmological and metaphysical aspects of its thought Through a careful analysis of the text and its appended commentaries David Chai reveals not only how nothingness physically enriches the myriad things of the world but also why the Zhuangzi prefers nothingness over being as a means to expound the authentic way of Dao Chai weaves together Dao nothingness and being in order to reassess the nature and significance of Daoist philosophy both within its own historical milieu and for modern readers interested in applying the principles of Daoism to their own lived experiences Chai concludes that nothingness is neither a nihilistic force nor an existential threat instead it is a vital component of Dao s creative power and the life praxis of the sage Chai provides an elaborate philosophical meontological interpretation of the ontology cosmology found in the Zhuangzi and the implications for existential practice It s a close careful but in many respects quite original reading of the classic that contributes significantly to the field of philosophical Daoist studies Geir Sigursson author of Confucian Propriety and Ritual Learning A Philosophical Interpretation Philosophy and Religion in Early Medieval China Alan K.
