New Directions For Library Service To Young Adults:

New Directions for Library Service to Young Adults Patrick Jones, Young Adult Library Services Association, 2002-05-22 Explains how libraries and communities can work together to strike a true partnership with the young adults in their community to develop services for teens that are both collaborative and outcome driven

Young Adult Library Services Anthony Bernier, Shari Lee, 2024-04-26 Finally a single volume that comprehensively introduces and addresses the most pressing issues and opportunities in young adult teen library services Perpetually in the shadow of service to children and historically riven by fractious relationships between public and school libraries young adult services continue to suffer inadequacies and inequities of all kinds Consequently this area of specialization remains without the capacity to build the institutional political cultural or professional influence needed to grow and develop beyond ritual and repetition Young Adult Services Challenges and Opportunities COYAS begins to address these inequities by preparing professionals In COYAS LIS youth services instructors especially those in the United States and Canada will find a single broad and diverse engagement with scholars and acknowledged experts on the most pressing issues confronting YA services today Students at both graduate and undergraduate levels will benefit from the field tested topics delivered through accessible treatments Practicing YA and youth librarians will appreciate the support and evidence based analysis they likely found lacking in their MLIS programs Earnest youth advocates will value the pursuit of issues beyond cliché and perpetual crash course entry level conversations In addition instructors and students will both value the brevity of concisely focused chapters sectional introductions as well as the study guide questions that conclude each chapter Content areas include history and critical engagement with foundational concepts in YA services current practices regarding challenges and opportunities as well as forward leaning issues for future development of the field COYAS will ultimately empower librarians in delivering professional grade information services to improve the quality of young people's experience in this important cultural institution

Serving Young Teens and 'Tweens Sheila B. Anderson, 2006-11-30 Notable teen experts and stellar practitioners from across the country explain why library service to adolescents in this age range is so important and how you can enhance your collection and services to accommodate and win over this important group Topics range from understanding adolescent informational needs and building and promoting a winning collection to creating programs with tween appeal Contributors include Sheila B Anderson James Rosinia Deb Taylor Robyn Lupa and Kristine Mahood Brimming with valuable insights and fresh ideas as well as nuts and bolts directions this is a must read for all librarians who work with young adolescents If someone is described as a young adult what image comes to mind In fact a young adult can be a twelve year old middle schooler or a high school graduate Libraries have traditionally offered a variety programs and services for YAs and although more emphasis has been given to serving teens in recent years little has been done to distinguish between groups within the category and meet the specific developmental needs of this broad range of library users This collection

complements Anderson's previous collection *Serving Older Teens* by focusing on the needs of tweens and young teens ages 11-14. This is the age range when many young people stop using the library and lose interest in reading. Notable teen experts and stellar practitioners from across the country explain why service to adolescents in this age range is so important and how you can enhance your collection and services to accommodate and win over this important group. Topics range from understanding adolescent informational needs and building and promoting a winning collection to creating programs with tween appeal. Contributors include Sheila Anderson, James Rosinia, Deb Taylor, Robyn Lupa, Brenda Hager, and Kristine Mahood. Brimming with valuable insights and fresh ideas as well as nuts and bolts directions, this is a must read for all librarians who work with young adolescents. *Young Adults Deserve the Best* Sarah Flowers, Young Adult Library Services Association, 2011. As high school enrollment continues to rise, the need for effective librarianship serving young adults is greater than ever before. *Young Adults Deserve the Best: Competencies for Librarians Serving Youth* developed by Young Adult Library Services Association (YALSA) is a document outlining areas of focus for providing quality library service in collaboration with teenagers. In this book, Sarah Flowers identifies and expands on these competency areas. This useful work includes anecdotes and success stories from the field, guidelines which can be used to create evaluation instruments, determine staffing needs, and develop job descriptions. Additional professional resources following each chapter will help librarians turn theory into practice. The first book to thoroughly expand on this important document, *Young Adults Deserve the Best* is a key foundational tool not only for librarians but also for young adult specialists, youth advocacy professionals, and school administrators. ***Serving Homeschooled Teens and Their Parents*** Maureen T. Lerch, Janet Welch, 2004-05-30. Today more than a million students are being educated at home, and that figure increases at a rate of 7-14% annually. Homeschooling is a growing trend in our society, and public librarians are being called upon with increasing frequency to serve the needs of homeschooled students. So just what are the needs of the homeschooled teen, and how can you and your library meet those needs? A former young adult librarian and a homeschool parent have joined forces to create this insightful guide and answer that question. After reviewing the developmental and social needs of teens, the authors demonstrate how those needs may be met in the public library setting. You'll find a wealth of ideas for adapting every facet of your library service for this growing population, from developing a homeschool collection to expanding services and creating special programs. You'll also find suggestions on how to market what your library has to offer to homeschoolers. You may even discover some new ways to employ the talents and time of these students and their families. Extensive resource lists conclude the volume; they will help you better serve home-educated teens and their parents. *Teens and Libraries* Virginia A. Walter, Elaine Meyers, 2003-07-21. Getting it right means understanding our roles as adults and professionals. Getting it right requires a genuine commitment to youth participation. Getting it right is about shifting our perspective from the library to the community in which it is located. Getting it right makes it imperative that we give teens a place of their own in our libraries.

From the Preface Libraries have opportunities to make a positive difference in the lives of teenage customers and become a primary support for teens in the communities they serve Truly excellent library services for young adults YA need the collaborative efforts of both teens and librarians To build this partnership the authors share an inspiring narrative of YA history and also offer a plethora of new voices and stories that advocate the power of technology and teen spaces These story lines are then melded to highlight practical tools to involve teens at the library and make a bright future possible As the authors explore what has been done well and what hasn't in the world of young adult librarianship they identify key issues from the plethora of new voices How librarians can work with not for young adult customers Why the power of place means actual square footage designed for teens Ways to incorporate technology to achieve developmental outcomes Listening to teen voices to better serve their needs How evaluation and being accountable will close the loop on effective advocacy The authors guide both librarians and administrators to make promises for the future and present a strategy for keeping those promises so that young adult audiences can become active library and community participants From building partnerships to implementing successful programs to incorporating technology that helps teens assume leadership and responsibility this is an inspiring yet practical take on what it means to get it right for teens in the library
