These issues involve aspects of language testing such as test development, test administration, scoring and interpretation, use of test results. Chapters in this volume discuss insights about language testing policy, testing world languages, developing program level language tests and tests of specific language skills and language assessment literacy. In addition, this book identifies two needs in language testing for further examination: the need for collaboration between language test developers, language test users and language users and the need to base language tests on real world language use. *Digital Technologies and Applications* Saad Motahhir, Badre Bossoufi, 2024-08-16 This book presents volume 1 of selected research papers presented at the fourth International Conference on Digital Technologies and Applications (ICDTA 24).
