Camden, 2021-12-16 Combining literature and psychoanalysis this collection foregrounds the work of literary creators as foundational to psychoanalysis **Transnational and Interdisciplinary Approaches to Western American Culture** Ángel Chaparro Sainz, 2025-05-30 The book offers a diverse and rich picture of current research on the literature and culture of the American West The book privileges transnational and interdisciplinary approaches aiming to understand how Western iconography has moved well beyond both national limits and literary borders becoming nomadic A selection of internationally renowned experts on Western American studies will consider the literary and artistic representation of the complex interaction between the mythic dimension of the West and its real historical social and cultural features both inside American culture and as it converses with other cultures The book also addresses other cultural and artistic manifestations that interact overlap and interrelate with Western writing in complex often dialogic ways as exemplified by cinema art and comics and it also explores how different voices and or experiences have complicated and diversified the potential definitions of the American West *Amazons in the Digital Era* Arturo Sánchez Sanz, 2025-09-04 For more than 3 000 years the Amazons have been a recognised symbol that transcends mythology and has influenced history itself The image of the powerful warrior woman who defied the established patriarchal order proved so compelling that it became permanently enshrined in the collective imagination first through oral tradition and later through texts and images The contributions in this volume explore how this image has endured through the lens of classical reception From Wonder Woman to the war in Ukraine and across diverse genres such as video games fashion warfare and documentary film the Amazonian archetype has evolved beyond anything once imagined Today however we are witnessing a true transformation No longer embodying the negative traits the Greeks once ascribed to them the Amazons have become a symbol of strength resilience and empowerment a model for women s rights in a global society and an icon of feminism and the LGBTQIA community Divided into three parts this book analyses how the image of the Amazon has at different times and in different contexts been marginalised put on a pedestal and globalised For the first time media case studies and lived histories are examined to compare and contrast modern frameworks with each other and with the original Amazonian

iconography What emerges is a concept of the Amazon as a modern paradigm that speaks as strongly to contemporary society as it did to the ancients but with a very different meaning
