 WONDERFUL AND VARIED SHORT STORIES AND SHARE THEM WITH THE WORLD Written by one of the country's
 leading experts on the short story this book is ideal if you want to write creatively in a genre that is increasingly attracting
 attention from publishers and which offers plenty of competition and festival opportunities for you to showcase your work

 addition it discusses genres such as micro-fiction and throughout is fully updated with new resources events slams and
 competitions It will help unlock your imagination and creativity and to discover stories you didn't know you had It will help
 you to observe the world around you more sharply as well as to structure shape and polish your story It is full of practical
 exercises that will both inspire imagination and refine skills and confidence building suggestions and hints **The Book of
 It** Scott Rahn, 2019-05-10 This book The Book of It is not the ultimate and single explanation of what its author has uncovered
 by years of reading research and listening to the words and teachings of others The fact is that the only part of It that can be
 described by a single strand within The Book of It explains at times cryptically the journey of its author through the strands
 of It that he himself has encountered Strands passing across history through literature and religious texts and philosophies
 and even into the legends of the world It can easily be seen as the tale of unknown centuries of people easily manipulated by
 virtue of what they wish to have and how they are taught or led to obtain it along with what they are oftentimes kept willingly
 ignorant of as they unknowingly push an apparently undying school of thought and way of life crashing forward through time
 It is not so much the story of some grand conspiracy as it is the story of people blinded by imagined desires and glories
 Individuals working at the same time but neither with or without the perceived aid of each other down the path to attaining It
 contains a strand of common legends stories lessons and teachings that are somehow known the world over Stories of once
 great empires and their cities and peoples now long forgotten at least one great war masters who exploited mass populations

kept in ignorance of the same monumental disasters and of the destruction of it all over and over so that another chance can be given to creation along with the chance to finally build a truly eternal civilization and culture and more **EDGAR**
