police officer experiences different kinds of adverse situations while performing his/her duty. Sometimes his/her own life may be threatened due to a suspect's actions. Therefore, it is essential for the officer to know defensive tactics to protect him/herself and to control adverse situations. In modern society, police have different responsibilities such as crime investigation, providing security, crime control, etc. Therefore, the officer must be aware of special tactics by which he/she can defend him/herself against stabbing, grabbing, pushing, kicking, using sharp and dangerous weapons and firearms. Within a fraction of a second, a police officer must be able to react properly; otherwise, it may prove to be a fatal situation. Every officer must be aware of defensive tactics and should be able to apply them effectively whenever required. Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement.

DEFENCE and INTERVENTION -2- (Weapon Retention and Disarming, Handcuffing, Conducting Suspect Searches, Defensive Baton)

Mürsel Sevindik, 2020-04-25. This book covers Weapon Retention and Gun Disarming, Handcuffing, Conducting Suspect Searches, and Defensive Baton subjects for law enforcement officers. In some close encounters, a suspect may try to grab the officer's sidearm. Loss of the officer's gun could mean the loss of his/her life. The officer or civilians may be killed or injured by offenders who take and use an officer's firearm. Officers must develop a defensive awareness that their weapon can be snatched. Handcuffs are temporary restraining devices designed to control the movements of a subject. However, they do not entirely immobilize a suspect. Its proper use and application is crucial for the safety of the officer, subject, and public. Body searching is a vague topic. It is a careful, systematic examination of the suspect at the scene of a crime or immediately after apprehension. Failure to conduct a proper search could cost an officer's or civilian's life. Modern law enforcement tool baton has been developed to increase officers' ability to protect themselves, particularly in those cases not justifying the use of deadly force. A trained officer who is proficient in the use of the baton is better able to protect himself and is less likely to resort to the use of his firearm. Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement.

For Security Personnel, HARD EMPTY HAND CONTROL, 2020 Mürsel Sevindik, 2020-04-14. This book covers Hard Empty Hand Control issues for law enforcement officers. The goal is to provide police officers with an understanding of the principles of Hard Empty Hand Control techniques. Hard Empty Hand Control techniques are defined as striking techniques. These techniques are used to control active aggression with empty hands and feet when the intermediate use of weapons is justified but are not tactically available. The term hard is descriptive of the nature of the technique. Hard empty hand strikes are always defensive, not offensive. These techniques are taught to protect lives from immediate danger. All hard empty hand control techniques are basic in nature; however, they address non-lethal use of force situations and are generally reliable and effective when properly utilized. Police officers should learn and demonstrate knowledge of the striking areas as well as methods of striking. When these techniques become necessary, loud, clear, repetitive verbal commands are an important aspect of the control process. The subject needs to know what the officer

desires him/her to do. In addition, verbal and physical de-escalation is always preferred and should be attempted if applicable. In training, safety is paramount. Perfect practice makes perfect. Proper technique is more important than the speed of technique application. Proficiency will increase the speed proportionally. Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement.
