Natural Family Planning A Catholic Approach:

Natural Family Planning Mary Lee Barron, 2009 Natural family planning is the perfect resource for every Catholic who has questions about Church teachings regarding contraception This booklet explores the history of Christian belief regarding contraception natural family planning methods of the modern era and artificial contraception Offering suggestions on finding a health care provider and the married couples relationship this booklet also provides real data on what research shows about the benefits of natural family planning *Natural Family Planning: The Complete Approach* John and Sheila Kippley, 2009-03-11 The right and healthy way to achieve or postpone pregnancy Cover Catholicism and Science Peter M.J Hess, Paul L. Allen, 2008-03-30 When most people think about Catholicism and science they will automatically think of one of the famous events in the history of science the condemnation of Galileo by the Roman Catholic Church But the interaction of Catholics with science has been and is far more complex and positive than that depicted in the legend of the Galileo affair Understanding the natural world has always been a strength of Catholic thought and research from the great theologians of the Middle Ages to the present day and science has been a hallmark of Catholic education for centuries Catholicism and Science a volume in the Greenwood Guides to Science and Religion series covers all aspects of the relationship of science and the Church How Catholics interacted with the profound changes in the physical sciences natural philosophy and biological sciences natural history during the Scientific Revolution how Catholic scientists reacted to the theory of evolution and their attempts to make evolution compatible with Catholic theology and the implications of Roman Catholic doctrinal and moral teachings for neuroscientific research and for investigation into genetics and cloning The volume includes primary source documents a glossary and timeline of important events and an annotated bibliography of the most useful works for further research **Super-Natural Family Planning: Catholic for a Reason IV** Curtis Martin, Michaelann Martin, 2007-06-01 In this brief yet challenging essay FOCUS Fellowship of Catholic University Students president Curtis Martin and his wife Michaelann cut to the heart of a controversial topic in the Church contraception vs Natural Family Planning They explain the difference between the sterilization of the marriage act inherent in contraception and the use of cooperating with the woman's natural cycle to avoid pregnancy They further challenge Catholics and non Catholics alike as they highlight the super natural element necessary in this matter and question the use of NFP as a norm In a time when the use of NFP is widespread so that many have likened it to Catholic birth control the Martins encourage without being rash or imprudent couples to trust God for tomorrow's needs and embrace His call to be fruitful and multiply **Why Humanae Vitae Is Still Right** Janet Smith, 2018-07-01 Paul VI's genius proved prophetic he had the courage to stand against the majority to defend moral discipline to exercise a brake on the culture to oppose present and future neo Malthusianism Pope Francis Of all the paradoxical fallout from the Pill perhaps the least understood today is this the most unfashionable unwanted and ubiquitously deplored moral teaching on earth is also the most thoroughly vindicated by the accumulation of

secular empirical post revolutionary fact The document in question is of course Humanae vitae Mary Eberstadt Author Adam and Eve after the Pill After half a century how has the teaching of Pope Paul VI on marriage and birth control presented in his encyclical Humanae vitae On Human Life held up Very well says philosopher Janet Smith and her colleagues in Why Humanae Vitae Is Still Right A sequel to Smith s classic Why Humanae Vitae Was Right this new volume shows how the ethical theological spiritual and sociological case for Paul VI s controversial document remains strong indeed how it s in some ways even stronger today following Pope John Paul II s Theology of the Body and in light of the problems caused by the sexual revolution In addition to essays by Dr Smith herself the book features contributions by other renowned experts and scholars such as Mary Eberstadt author of the best selling Adam and Eve after the Pill George Weigel Therese Scarpelli Corey Michael Waldstein Christopher West Obianuju Ekeocha author of the best selling Target Africa Maria Fedoryka Deborah Savage Derek Doroski Angela LaFranchi William Newton Joseph Atkinson Michele M Schumacher and Peter Colosi Why Humanae Vitae Is Still Right includes the Krakow Document composed under the supervision of Cardinal Karol Wojtyla later Pope John Paul II which provided research by moral theologians and other experts that helped to shape Humanae vitae to be a more personalistic document *India's Journey Towards Sustainable Population* Bedprakas SyamRoy,2016-10-18 This book makes a thorough investigation of the population problem issues in India from diverse angles demographic policy and programme Discussing the theoretical background of population control the book also deals with all mundane issues social cultural religious legal and health issues and attempts to capture the state of preparedness of India to reach sustainable population It is a valuable resource for students of population studies and academics working on population control and management Additionally it is also a useful reference work for trainees at national academies journalists family welfare service providers and the civil society groups working on population control and family planning Catholic Witness in Health Care John M.
