Nazi Economics Ideology Theory And Policy:

The Nazi Economic Recovery 1932-1938 R. J. Overy, 1996-06-27 A fully revised and updated edition of this short comprehensive survey of the Nazi economy *Nazi Economics* Avraham Barkai, 1990 This respected Israeli scholar argues that fundamental ideological and political goals of Nazi leaders made them receptive to revolutionary economic theories such as those of J M Keynes He examines how the economic system of the Third Reich was based on an anti liberal philosophy that proved extraordinarily effective in bringing about the German Economic Miracle by 1937 War and Economy in the Third Reich R. J. Overy, 1995-06-29 War and Economy in the Third Reich examines the nature of the German economy in the 1930s and the Second World War Richard Overy s essays collected here for the first time with a substantial new introduction explore the tension between Hitler s vision of an armed economy and the reality of German economic and social life Often thought provoking always informed War and Economy opens a window on an essential aspect of Hitler s Germany

Economic Liberalism and Its Rivals Keith A. Darden, 2009-02-02 Darden traces the decisions that shaped the entry of post Soviet states into the world economy **A Companion to Nazi Germany** Shelley Baranowski, Armin Nolzen, Claus-Christian W. Szejnmann, 2018-04-03 A Deep Exploration of the Rise Reign and Legacy of the Third Reich For its brief existence National Socialist Germany was one of the most destructive regimes in the history of humankind Since that time scholarly debate about its causes has volleyed continuously between the effects of political and military decisions pathological development or modernity gone awry Was terror the defining force of rule or was popular consent critical to sustaining the movement Were the German people sympathetic to Nazi ideology or were they radicalized by social manipulation and powerful propaganda Was the Final Solution the motivation for the Third Reich s rise to power or simply the outcome A Companion to Nazi Germany addresses these crucial questions with historical insight from the Nazi Party s emergence in the 1920s through its postwar repercussions From the theory and context that gave rise to the movement through its structural cultural economic and social impacts to the era s lasting legacy this book offers an in depth examination of modern history s most infamous reign Assesses the historiography of Nazism and the prehistory of the regime Provides deep insight into labor education research and home life amidst the Third Reich s ideological imperatives Describes how the Third Reich affected business the economy and the culture including sports entertainment and religion Delves into the social militarization in the lead up to war and examines the social and historical complexities that allowed genocide to take place Shows how modern day Germany confronts and deals with its recent history Today s political climate highlights the critical need to understand how radical nationalist movements gain an audience then followers then power While historical analogy can be a faulty basis for analyzing current events there is no doubt that examining the parallels can lead to some important questions about the present Exploring key motivations environments and cause and effect this book provides essential perspective as radical nationalist movements have once again reemerged in many parts of the world **The Holy**

Reich Richard Steigmann-Gall, 2003-04-21 Analyzing the previously unexplored religious views of the Nazi elite Richard Steigmann Gall argues against the consensus that Nazism as a whole was either unrelated to Christianity or actively opposed to it He demonstrates that many participants in the Nazi movement believed that the contours of their ideology were based on a Christian understanding of Germany's ills and their cure A program usually regarded as secular in inspiration the creation of a racist people's community embracing antisemitism antiliberalism and anti Marxism was for these Nazis conceived in explicitly Christian terms His examination centers on the concept of positive Christianity a religion espoused by many members of the party leadership He also explores the struggle the positive Christians waged with the party's pagans those who rejected Christianity in toto as foreign and corrupting and demonstrates that this was not just a conflict over religion but over the very meaning of Nazi ideology itself **Export Empire** Stephen G. Gross, 2015 A major new interpretation of Nazi influence in southeastern Europe through the concepts of soft power and informal empire **World Fascism** Cyprian Blamires, 2006-09-18 This book shows how during the 20th century evils such as totalitarianism tyranny war and genocide became indelibly linked to the fascist cause and examines the enduring and popular appeal of an ideology that has counted princes poets and war heroes among its most fervent adherents From the followers of Hajj Amin Al Husseini the Arab leader who met with Adolf Hitler in November 1942 to the murderous death squads of the Croatian Ustasha to certain members of the British Establishment fascism's heady brew of extreme nationalism and revolutionary violence has attracted followers from across all religions races and classes Now widely reviled fascism became an immensely powerful political force in Western Europe throughout the 1930s and into the 1940s How did civilized nations like Italy Germany Austria and others succumb to an ideology now regarded by the political mainstream as barbarous and beyond the pale **World Fascism A Historical Encyclopedia** covers all the key personalities and movements throughout the history of fascism and brings to light some of the ideology's lesser known aspects from Hindu extremists in India to the influential role of certain women in fascist movements How did an ideology which was openly boastful of its belief in violence come to seduce the elites of some of the most civilized nations on earth What can explain fascism's enduring appeal **Mutant Neoliberalism** William Callison, Zachary Manfredi, 2019-11-05 Tales of neoliberalism's death are serially overstated Following the financial crisis of 2008 neoliberalism was proclaimed a zombie a disgraced ideology that staggered on like an undead monster After the political ruptures of 2016 commentators were quick to announce the end of neoliberalism yet again pointing to both the global rise of far right forces and the reinvigoration of democratic socialist politics But do new political forces sound neoliberalism's death knell or will they instead catalyze new mutations in its dynamic development **Mutant Neoliberalism** brings together leading scholars of neoliberalism political theorists historians philosophers anthropologists and sociologists to rethink transformations in market rule and their relation to ongoing political ruptures The chapters show how years of neoliberal governance policy and depoliticization created the conditions for thriving reactionary forces while also reflecting

on whether recent trends will challenge reconfigure or extend neoliberalism's reach The contributors reconsider neoliberalism's relationship with its assumed adversaries and map mutations in financialized capitalism and governance across time and space from Europe and the United States to China and India Taken together the volume recasts the stakes of contemporary debate and reorients critique and resistance within a rapidly changing landscape Contributors: Étienne Balibar, Søren Brandes, Wendy Brown, Melinda Cooper, Julia Elyachar, Michel Feher, Megan Moodie, Christopher Newfield, Dieter Plehwe, Lisa Rofel, Leslie Salzinger, Quinn Slobodian Hitler's Germany Roderick Stackelberg, 2002-01-22 This book provides a comprehensive history of Nazi Germany and sets it in the wider context of 19th and 20th century German history It analyses how a culture of such creativity and achievement could generate such barbarism and destructivity
