working with teacher candidates the approach described here enlists the collaboration of both university educators and professional staff development personnel The book includes a detailed outline of a seminar to introduce teachers to the NBPTS process complete with written samples and reproducible overhead transparency masters Also featured are chapters contributed by Board Certified Teachers who share portfolio samples and activities in four certification areas Supported by research proven best practices in professional education the book includes extensive reference lists and helpful hints for facilitators

The Future of Assessment Carol Anne Dwyer, 2017-09-25 text This volume stems from the 2003 Educational Testing Service Invitational Conference that convened leading scholars and practitioners from education psychology economics statistics and public policy to discuss the important topic of measurement and accountability The chapters cover all significant aspects of the current accountability scene with careful but not exclusive attention to the No Child Left Behind act Written by nationally recognized scholars with a mandate to write in a non technical style this volume will appeal to anyone seriously interested in school reform and the educational accountability movement

Assessing Accomplished Teaching National Research Council, Division of Behavioral and Social Sciences and Education, Center for Education, Board on Testing and Assessment, Committee on Evaluation of Teacher Certification by the National Board for Professional Teaching Standards, 2008-10-04 The mission of the National Board for Professional Teaching Standards NBPTS is to establish high and rigorous standards for what teachers should know and be able to do to certify teachers who meet those standards and to advance other education reforms for the purpose of improving student learning in American schools In response to a request from the U S Congress the National Research Council developed a framework for evaluating programs that award advanced level teacher certification and applied that framework in an evaluation of the impacts of the NBPTS Specifically this book addresses the impacts on students teachers and the educational system in this country Assessing Accomplished Teaching finds that teachers who earn board certification are more effective at improving their students achievement than other teachers but school systems vary greatly in the extent to which they recognize and make use of board certified teachers Many of the questions on the evaluation framework could not be answered because the data have not been collected and the report makes recommendations for the kinds of research that are needed to fully evaluate the impacts of board certification by the NBPTS

Second Handbook of Research on Mathematics Teaching and Learning Frank K. Lester, 2007-02-01 The audience remains much the same as for the 1992 Handbook namely mathematics education researchers and other scholars conducting work in mathematics education This group includes college and university faculty graduate students investigators in research and development centers and staff members at federal state and local agencies that conduct and use research within the discipline of mathematics The intent of the authors of this volume is to provide useful perspectives as well as pertinent information for conducting investigations that are informed by previous work The Handbook should also be a useful textbook for graduate research seminars In addition to the audience mentioned above the present Handbook

contains chapters that should be relevant to four other groups teacher educators curriculum developers state and national policy makers and test developers and others involved with assessment Taken as a whole the chapters reflects the mathematics education research community s willingness to accept the challenge of helping the public understand what mathematics education research is all about and what the relevance of their research findings might be for those outside their immediate community
