Essential Readings in Problem-Based Learning Andrew Walker, Heather Leary, Cindy Hmelo-Silver, 2015-01-15 Like most good educational interventions problem based learning PBL did not grow out of theory but out of a practical problem Medical students were bored dropping out and unable to apply what they had learned in lectures to their practical experiences a couple of years later Neurologist Howard S Barrows reversed the sequence presenting students with patient problems to solve in small groups and requiring them to seek relevant knowledge in an effort to solve those problems Out of his work PBL was born The application of PBL approaches has now spread far beyond medical education Today PBL is used at levels from elementary school to adult education in disciplines ranging across the humanities and sciences and in both academic and corporate settings This book aims to take stock of developments in the field and to bridge the gap between practice and the theoretical tradition originated by Barrows that underlies PBL techniques *Choosing Charters* Joshua L. Glazer, 2018-03-30 Do charter schools strengthen students educational experience What are their social costs This volume brings together a group of premier researchers to address questions about the purposes of charter schools and the role of public policy in shaping the educational agenda Chapter authors explore topics seldom encountered in the current charter school debate such as the challenges faced by charter schools in guaranteeing students civil rights and other legal protections the educational and social implications of current instructional programs designed specifically for low income and minority students the use of charters as school turnaround agents and other issues that lie at the intersection of education politics and social policy Readers across the political spectrum both supporters and critics of charter schools can use this book to inform public policy about the ways in which charters affect diversity and inequality and the potential to devise policies that mitigate the most troublesome social costs of charter schools Book Features Examines how charter schools affect diversity and equity in U S schools Describes how segregation plays out by race ethnicity and income by disability and language minority status and by culture language and religion Considers charter schools within a broader social context of high poverty rates changing demographics and continued housing and school segregation Examines charter schools in the context of a new federal administration that is forging its own path in education and other domains of social policy Includes some of the most prominent researchers and commentators in the field spanning policy research traditions methodological approaches and theoretical perspectives **Planning & Changing**, 2016 **Growth, Decline, and Regeneration in Large Cities** Steven G. Koven, Andrea C. Koven, 2018-04-09 Growth Decline and Regeneration in Large Cities sheds light on why some cities prosper others implode and still others are able to reverse their downward trajectories The book focuses on four major case studies of American metropolitan areas Detroit Boston Minneapolis and Austin It explores how distinctive political and cultural forces in these cities affected economic growth or decline Theoretical frameworks to explain economic development in urban areas are identified The book addresses important subjects such as

response to deindustrialization disruption caused by gentrification globalization and the importance of human capital for economic development **Professional Development Schools and Transformative Partnerships** Polly, Drew,2014-08-31 School university partnerships have the potential to greatly benefit teaching and learning in PK 12 environments as well as educator preparation programs This collaboration is advantageous to teachers counselors and administrators Professional Development Schools and Transformative Partnerships provides a comprehensive look at the design implementation and impact of educational initiatives between schools and universities Including cases and research on existing collaborations this publication addresses barriers and trends in order to provide direction for successful partnerships in the future This book is an essential reference source for educational leaders in colleges schools and departments of education as well as leaders of PK 12 schools **Urban Displacement** Are John Knudsen,Sarah A. Tobin,2024-03-01 Syria s massive displacement from 2012 onwards is one of the largest most complex and intractable humanitarian emergencies of today More than 5 7 million Syrian refugees live mainly in cities and urban areas throughout the Middle East Urban Displacement examines multiple dimensions of this crisis from political and socioeconomic predicaments to questions of social belonging the complexity of the international regional and national responses and how they affect urban spaces The volume brings together experts in the field of forced migration studies and displacement in the Middle East and presents a range of in depth ethnographic data cross sectional surveys and policy analyses **OAR Cumulative Index of Research Results** United States. Air Force. Office of Aerospace Research,1965 **Neurophysiology in Alzheimer's Disease and Dementia** Davide Vito Moretti,2016-09-06 Alzheimer s disease AD and dementia are the most common neurodegenerative disorder Since the number of individuals with AD and dementia is expected to increase considerably in the near future reliable treatment and diagnosis are critical EEG and neurophysiological technique could be used as a cost effective screening tool for early detection and diagnosis in the Mild Cognitive Impairment MCI stage The aim in neurophysiology research is to develop signal processing methods that improve the specificity for diagnosing dementia we wish to discover signal features that not only significantly differ in AD patients but also allow us to reliably separate AD patients and control subjects This approach is valuable for clinical purposes as diagnostic tool for dementia and it also more fundamentally contributes to a better understanding of brain dynamics of MCI patients Finally the development of neurophysiological biomarker could be useful in monitoring pharmacological treatments The main focus of this special issue will be on the most recent developments and ideas in the field of EEG and neurophysiology which will enable us to extract features that improve the specificity for diagnosing AD and dementia **Making Green Cities** Jürgen Breuste,Martina Artmann,Cristian Ioja,Salman Qureshi,2020-02-22 This book shows what role nature can play in a city and how this can make it a better place for people to live People planners designers and politicians are working towards the development of green cities Some cities are already promoted as green cities while others are on their way to become one But their goals are often unclear and can include

different facets Presenting contributions from world leading researchers in the field of urban ecology the editors provide an interdisciplinary overview of best practices and challenges in creating green cities They show examples of how to build up these cities from bits and pieces to districts and urban extensions Each example concludes with a summary of the collected knowledge the learning points and how this can be used in other places The best practices are collected from around the world Europe Australia America and Asia The new dynamic urban development of Asia is illustrated by case studies from China and the Indian subcontinent The reader will learn which role nature can play in green cities and what the basic requirements are in terms of culture pre existing nature conditions existing urban surroundings history design and planning

Tourism Spaces Alan A. Lew, 2021-07-19 Geographic space is a fundamental and essential construct of the physical reality within which we live move and construct our world Through space we create others anything that is any distance from us and we experience time by moving from one place point to another Because it is so fundamental to our experience we often take geographic space for granted *Tourism Spaces Environments Locations and Movements* shows some of the ways that geographers and other social scientists bring spatial considerations to the forefront of our research and understanding of tourism This is seen through the spatial arrangements and distributions of tourism phenomena such as attractions destinations and in the spatial behaviour of tourists themselves Today these spatial arrangements and patterns are increasingly being captured analysed and understood through various forms of formal and informal digital data The chapters in this book were originally published as a special issue of *Tourism Geographies*
